MINUTES

STATE OF NEW JERSEY

GENERAL ASSEMBLY

TUESDAY, January 13, 1970.

At 12 o'clock noon, Tuesday, January 13, 1970, Assemblyman-elect Walter L. Smith, Jr., of Burlington County, called to order the One Hundred and Ninety-fourth Session of the General Assembly (the twenty-third under the Constitution adopted by the people in 1947) by reading the following call:

"This being the second Tuesday of January, the time fixed for the beginning of the Legislative year, the General Assembly of the State of New Jersey is now called to order."

Assemblyman-elect Walter L. Smith, Jr., read the Certificate of Election.

Assemblyman-elect Walter L. Smith, Jr., administered the oath of office to Assemblyman-elect Hugo M. Pfaltz.

Mr. Pfaltz administered the oath of office to the remaining members-elect.

Mr. W. L. Smith called the roll. The members appeared, answered to their names and advanced to the bar of the House to sign the Scroll.

Mr. W. L. Smith introduced the Right Reverend Monsignor Salvatore Adams, Editor of the Catholic Star-Herald, Camden, N. J., who pronounced the invocation.

Mr. W. L. Smith requested those present to stand and salute the flag.

Solo was sung by Edward O. Roecker, Jr., accompanied by Ray J. Hottinger.

Mr. W. L. Smith announced that nominations for a temporary chairman were now in order.

Mr. De Korte, of Bergen County, nominated Mr. Vander Plaats, of Bergen County, which nomination was seconded by Mr. Woodson, of Mercer County, and further seconded by Mr. Hurley, of Cumberland County.

Mr. W. L. Smith announced that he would entertain a motion that nominations for temporary chairman be closed.

Mr. Schluter moved that nominations be closed.

Which motion was adopted.

Mr. W. L. Smith directed that a roll call be taken, announced the vote and declared Mr. Vander Plaats elected temporary chairman, by the following vote:

In the affirmative were—

In the negative—None.

Mr. Vander Plaats, temporary chairman, announced that nominations for a Clerk were now in order.

Mr. Raymond, of Camden County, nominated Mr. Pat Charles, of Camden County, which nomination was seconded by Mr. Costa, of Bergen County.

Mr. Vander Plaats, temporary chairman, announced that he would entertain a motion that nominations for Clerk be closed.

Mr. Kaltenbacher moved that nominations be closed.

Which motion was adopted.

Mr. Vander Plaat, temporary chairman, directed that a roll call be taken, announced the vote and declared Pat Charles, of Camden County, elected Clerk of the General Assembly for 1970, by the following vote:

In the affirmative were—

Messrs. Azzolina, Black, Brown, Cafiero, Caputo, Cobb, Coleman, Connell, Conwell, Costa, Crane, Curcio, Dawes, De Korte, Dennis, Deverin, Dorgan, Dugan, Enos, Esposito, Evers, Ewing, Fay, Fenwick, Fiore, Florio, Fontanella, Foran, Friedland, Garibaldi, Gavan, Goldfarb, Haelig, Healey, Heilmann, Hirkala, Hollenbeck, Horn, Hurley, Irwin, Jackman, Kaltenbacher, Kean, Kiehn, Kravarik, LeFante, Littell, Lordi, Mabie, Macrae, Margetts, McDonough, Merlino, Moraites, Owens, Parker, Pfaltz, Policastro, Raymond, Richardson, Rinaldi, Robertson, Russo, Seancarella, Schluter, Shusted, Smith, A. S., Smith, W. L., Thomas, Volk, Vreeland, Weidel, White, Wilson, Woodson—75.

In the negative—None.

The Honorable Pierre P. Garven, Judge of the Bergen County Court, administered the oath of office to Mr. Charles.

Mr. Vander Plaat, temporary chairman, announced that nominations for Speaker were now in order.

Mr. Coleman, of Monmouth County, nominated Mr. Dickey, of Camden County, as Speaker, which nomination was seconded by Mr. Cafiero, of Cape May County, further seconded by Mr. Horn, of Camden County.

Mr. Vander Plaat, temporary chairman, announced that he would entertain a motion that nominations for Speaker be closed.

Mr. Brown moved that nominations be closed.

Which motion was adopted.

Mr. Vander Plaat, temporary chairman, directed that a roll call be taken, announced the vote, and declared William K. Dickey elected Speaker of the General Assembly for 1970 by the following vote:

In the affirmative were—

Messrs. Azzolina, Black, Brown, Cafiero, Caputo, Cobb, Coleman, Connell, Conwell, Costa, Crane, Curcio,

Dawes, De Korte, Dennis, Deverin, Dorgan, Dugan, Enos, Esposito, Evers, Ewing, Fay, Fenwick, Fiore, Florio, Fontanella, Foran, Friedland, Garibaldi, Gavan, Goldfarb, Haelig, Healey, Heilmann, Hirkala, Hollenbeck, Horn, Hurley, Irwin, Jackman, Kaltenbacher, Kean, Kiehn, Kravarik, LeFante, Littell, Lordi, Mabie, Macrae, Margetts, McDonough, Merlino, Moraites, Owens, Parker, Pfaltz, Policastro, Raymond, Richardson, Rinaldi, Robertson, Russo, Scancarella, Schluter, Smith, A. S., Smith, W. L., Suminski, Thomas, Turner, Volk, Vreeland, Weidel, White, Wilson, Woodson—76.

In the negative—None.

Mr. Vander Plaat, temporary chairman, requested Mrs. Margetts, Messrs. Parker, Friedland, Owens and Thomas to act as a committee of five to escort the Speaker to the bar of the General Assembly, where he took the oath of office.

The Honorable R. Cooper Brown, Judge of the Superior Court, administered the oath of office to the Speaker.

The Speaker on assuming the chair, addressed the General Assembly, as follows:

Judge R. Cooper Brown, Assemblyman Vander Plaat, distinguished colleagues and my fellow citizens:

This is a moment of quiet pride for each of us. For each Assemblyman, it is a fulfillment of the American dream—the distinction and honor of serving as the peoples' representatives in the policy-making branch of our State Government. For me, it is the high point in my legislative career. I am deeply sensitive of the important responsibilities which you have entrusted to me as Speaker of the General Assembly.

Customarily on an occasion such as this, one pays tribute to those who have been responsible for assisting in the attainment of a position of high honor. I am very appreciative today to many people. First, to my constituents in Camden County who have generously reelected me to my fourth term in the State Legislature and to the many friends and supporters who worked for my success. Secondly, I am indebted to each of you, my legislative colleagues, for selecting me to be the Speaker.

With the faith of a man who believes in God and the hope of a man who trusts his fellowmen, I accept this important assignment. I pledge to you that I will concentrate my energies and all the wisdom I can summon to fulfill the duties of this important office. To the Minority Party, I promise that I will abandon my traditional role as a partisan in exercising the functions as your presiding officer. I will try to be fair to all concerned on both sides of the aisle.

It was a day similar to this, just two years ago, that 55 new representatives assumed their duties in this Assembly. None of them had previously served in the Legislature. This dramatic change was the consequence of an increase in size from 60 to 80 members and a new plan of district apportionment. For the other 25 Assemblymen, who had served previously, we looked forward to a challenging and frustrating term. But I am happy to report that we were more than pleasantly surprised. The new Assemblymen proved to be equal to the task and assumed their legislative duties with distinction. Forty-two of those freshman Assemblymen, of two years ago, have been reelected and are now experienced and seasoned legislators. We have been joined, today, by 20 new Assemblymen and we look forward to getting better acquainted and to working with them here in Trenton.

This term of the Legislature marks the first implementation of the recently enacted Constitutional Amendment, creating a two-year session. Heretofore, sessions of the Legislature were on a yearly basis. Accordingly, today we commence the first of two annual sessions of the 194th Legislature of the State of New Jersey.

It has been said that the aerodynamics and wing loading of the bumblebee are such, that, in principle, it cannot fly.

If all this be true, life among the bumblebees must bear a remarkable resemblance to the workings of this legislative Assembly. This house has been characterized as too large, unwieldy, cumbersome and contentious. Others have criticized us for a lack of proper decorum. But in spite of all the critics and nay-sayers we can point with pride to the outstanding legislative accomplishments of the past two years. Actually, the nature of the forest has eluded the tree experts.

We have chalked up a record of responsible progress. The catalogue of achievements includes a giant step forward in capital improvements for higher education, State institutions, transportation and low income housing. Just two months ago our bond issue for water pollution control and reservoir site acquisition was also approved by the electorate.

These capital programs stand proudly, side by side, with a substantially greater revenue sharing effort by the State to our hard pressed municipalities, school districts and counties. Last year, the increase in State aid for local education, municipal services and county welfare exceeded \$100 million. This was accompanied, for the first time, by a substantial urban aid program for our six largest cities.

The recommendations of the Criminal Justice Study Commission have been implemented to the extent of providing our prosecutors and police officials with the sophisticated tools necessary to more adequately cope with organized crime. These include (1) a statewide grand jury, (2) the granting of immunity from prosecution to witnesses who cooperate with police officials, (3) authorization of wire-tapping and electronic eavesdropping under strict court supervision, (4) upgrading the State police and providing the funds for expansion of their crime laboratory. In addition, the Legislature established a permanent, high level Commission of Investigation to ferret out syndicated crime and official corruption. The recent disclosures of widespread crime operations in our State, has fortified the wisdom of this new legislation. However, it is abundantly clear that the incumbent Attorney General of our State has failed in his duty to come to grips with the crime problem. As a consequence, it has become necessary for the Federal District Attorney to lead the current drive against official corruption and organized crime. Fortunately we can look forward to the replacement of the Attorney General next week.

In the area of correction, we have moved ahead to reform our prisons and to provide a program of work release for prisoners who prove receptive to fruitful job experience prior to the conclusion of their term.

Time does not permit a full tabulation of our legislative accomplishments during the last session. But I would be remiss if I didn't at least mention the enactment of the

Medicaid program for the medically indigent people of New Jersey. This program became operational on the first day of this month. Significantly, we have also enacted an enlightened procedure for resolving labor disputes involving public employees by the establishment of a State agency to settle their grievances.

But we cannot continue the luxury of only looking back. We are here today to examine the challenges, weigh the priorities and set the goals for the new decade.

Next week, we will have a new Governor. He is confronted, as we too are confronted, with a monumental fiscal crisis. He has inherited a tremendous deficit requiring substantial new revenues just to continue the present level of State services and to meet the cost of those programs already authorized. He has courageously pointed the direction which must be taken. He has made a difficult decision, in order to put our financial house in order. I urge the General Assembly to move quickly to implement the Governor-elect's recommendations. The new tax program will be referred to our very capable Committee on Taxation for an early public hearing and prompt action.

I also urge the Assembly to move forward quickly to enact a meaningful Anti-Trust Law to effectively deal with the alarming infiltration of syndicated crime into legitimate business in this State. We must promptly control attempts by the underworld to monopolize, and restrain trade and commerce within the State. This is another necessary tool for our law enforcement officials in their continuing fight against organized crime.

In conclusion, I would like to quote from former President John F. Kennedy's address to the Massachusetts State Legislature in 1961.

"Today the eyes of all people are truly upon us. Our governments, in every branch, at every level, national, state and local, must be as a city upon a hill, constructed and inhabited by men aware of their grave trust and their great responsibilities.

"For of those to whom much is given, much is required. And when at some future date the high court of history sits in judgement on each of us, recording whether in our brief span of service we fulfilled our responsibilities to the state, our success or failure, in whatever office we hold, will be

measured by the answers to four questions: First, were we truly men of courage? . . . Second, were we truly men of judgment? . . . Third, were we truly men of integrity? . . . and finally, were we truly men of dedication?"

The Speaker named his secretary, Mario A. Lavicoli.

Mr. Parker offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker appoint forthwith a committee of six to wait upon the Governor and inform him that the General Assembly has organized by the election of the Honorable William K. Dickey of Camden County as Speaker, and of Pat Charles of Camden County as Clerk of the First Session of the One Hundred and Ninety-fourth Session of the General Assembly of New Jersey, and is now ready to proceed to business.

The Speaker appointed a committee of six:

Messrs. Parker, Burlington County; Kean, Essex County; A. S. Smith, Atlantic County; Volk, Bergen County; Hirkala, Passaic County and Woodson, Mercer County.

Mr. Parker offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized by the election of the Honorable William K. Dickey of Camden County as Speaker, and Pat Charles of Camden County as Clerk of the One Hundred and Ninety-fourth Session, and has proceeded to business.

Mr. Parker offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the General Assembly proceed to fill the remaining several offices of the General Assembly, and the nominations be made and a vote taken for all of the offices at one and the same time.

Mr. Parker offered the following resolution, which was read by the Clerk and adopted:

The Speaker recognized Mr. Friedland, Minority Leader of the General Assembly, who addressed the Assembly briefly.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

	STATE OF NEW JERSEY,	}
	SENATE CHAMBER,	
Mr. Speaker:	January 13, 1970.	

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 3:45 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency, Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up and

Mr. Parker moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Parker offered the following resolution which was read and adopted:

Be It Resolved, That the General Assembly recess for the purpose of a joint session.

The General Assembly recessed until 5:00 o'clock P. M.

Senate President Raymond Bateman recognized Senate Majority Leader Sears, who moved that the Joint Session of the 194th Legislature come to order.

Which motion was adopted.

Senate Majority Leader Sears declared a quorum present.

Prayer was offered by the Reverend Samuel A. Jeanes, Pastor, First Baptist Church, Merchantville, N. J.

Governor Richard J. Hughes delivered his annual message to the 194th Legislature.

Solo was rendered by Edward O. Roecker, accompanied by Ray J. Hottinger.

Benediction was offered by Rabbi Gerald Green, President, Rabbinical Association, Trenton, N. J.

EIGHTH ANNUAL MESSAGE

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

In 1966, as I assumed my second term of office, I said to the people and the Legislature of New Jersey that "we have too long been hidden in the shadows of great cities to the east and west, too long a mere corridor without our own identity, too long rich in private wealth but poor in public services, too long afraid to come to grips with our own destiny."

I believe that we in New Jersey, during the past eight years, have indeed come to grips with that destiny. I believe that we have fought hard and well for the best interests of our people. We have laid a solid foundation on which the new administration can and, I am confident, will work for greatness for this State in the 1970's.

Consider for a moment how the face of New Jersey has changed during these eight tumultuous years.

Excellence in Education

Consider the proud signs of our progress toward excellence in all phases of education:

- a new Department of Higher Education.
- a five-fold increase in expenditures for higher education.
- a four-fold increase in students enrolled in our public institutions of higher learning.
- two new State colleges authorized.
- two new medical schools in operation.
- a trebling of State aid for education to more than \$300 million.
- a crucial emergency school building aid program.

- the Urban Education Corps.
- the historic Educational Opportunity Fund.
- the Public Broadcasting Authority.
- thirteen community colleges now enrolling almost 30,000 students.
- the Educational Facilities Authority.

Progress in Other Fields

Consider some other features that now identify New Jersey—features unknown in 1962:

- a great Department of Community Affairs and Housing Finance Agency.
- a great Department of Transportation.
- the strongest air and water pollution control laws in the nation.
- implementation of the crucial Green Acres bond issue.
- the historic Hackensack Meadowlands Reclamation and Development Act, the key to a massive development problem that had defied solution for 300 years.
- prevention of the giveaway of 400,000 acres in tidelands in which the State has a substantial interest.
- a Moral Recommitment to the urgent needs of our hardest-pressed citizens and communities.
- laws authorizing a statewide grand jury, witness immunity, wiretapping, a State Commission of Investigation, and strong action against loansharking and waterfront crime, together with an increase in the number of State Police from 903 to 1,568.
- the toughest gun control law in the nation.
- a great public defender system

—a long and historic series of reforms to benefit the working men and women of New Jersey and to safeguard the human rights of all our citizens.

—voter approval of nearly \$1.4 billion in bonds, beyond annual appropriations, to forge ahead with unprecedented progress in our construction and improvement of institutions, colleges, highways, commuter railroads, and water pollution control and conservation facilities.

These are a few of the actions we have taken together for all the people of New Jersey, including the one million souls who have joined our ranks since I took office. These are some of the reasons for my belief that we have together established a new and proud identity for New Jersey and created the basis for excellence in the 1970's.

ESSENTIAL ACTION ON PENDING PROGRAMS

The new administration will soon be calling on this Legislature to act on important new programs for New Jersey. At the same time I respectfully call your attention to a series of legislative proposals that I have put forward repeatedly without success. I consider their prompt passage as important now as when I first recommended them.

I urge your reconsideration and enactment of the following measures :

Consumer Protection and Law Enforcement

1. The twenty-three remaining essential consumer protection bills contained in my Bill of Rights for New Jersey Consumers. These measures are essential to the well-being of both legitimate businessmen and the public-at-large, and there should be no further delay in their enactment.

2. The various anti-crime measures contained in my 1968 and 1969 legislative messages that you have not yet enacted. While our drive against crime in all its forms has been advanced by numerous programs that I have signed into law—including measures relating to the State Commission of Investigation, wire-

tapping, witness immunity, the statewide grand jury, loansharking, and waterfront crime—I consider action on my additional anti-crime proposals essential to a still more vigorous war on crime.

I therefore urge once again, in the strongest terms, prompt passage of the intrastate anti-trust law that would protect honest businessmen against the intrusion of organized crime into legitimate business through extortion, intimidation, monopolization, or collusion. I also urge prompt passage of the bills I have proposed to regulate the garbage collection and disposal industry so as to eliminate alleged price gouging and collusion and to remove criminal elements from this industry.

Moreover, I urge prompt passage of the wiretap amendments I have suggested in order to ensure that effective legal wiretapping will not only serve as a crucial tool in the war on crime but will also provide the necessary safeguards for personal liberties that are lacking in the present law. I also call your attention once again to my proposal for a Division of Criminal Justice, with a strong organized crime unit, that would establish the same relationship with the State Police that now exists between the U. S. Attorney's office and the F. B. I. In addition, I urge passage once again of a companion measure to create full-time prosecutors.

Narcotics Control and Education Measures

3. Several crucial narcotics control measures that you have declined to consider to date. These include the civil commitment program for juvenile narcotics offenders; the accelerated expenditure of \$6 million from the 1968 bond issue for construction or acquisition of appropriate facilities for the treatment of non-criminal addicts; and the establishment of a select and specially trained group of parole-probation officers to supervise and guide discharged addicts upon their return to the community.

4. A doubling of the emergency school construction program from \$90 million to \$180 million. Already 55 New Jersey communities have received assistance under this program, and authorization of an additional \$90 million—as I first requested in my

Moral Recommitment message of 1968—will provide direct and immediate aid to 62 districts.

5. Creation of a municipal bond bank, which through State assistance would provide both a short- and a long-term solution to the crushing borrowing cost and debt management problems of our municipalities.

6. Creation of a general state authority, under strict controls by both the executive and legislative branches, to help finance those capital projects—such as construction of sewage treatment plants—for which bond financing represents the most economical and efficient approach.

Municipal Aid and Land Use

7. Passage of my municipal aid program, which is based on a fair and equitable increase in the bank stock and financial business taxes. There can be no doubt of the pressing need for this program or of the fairness of its revenue aspects. And I have repeatedly indicated my willingness to accept any fair distribution formula.

Your decision to delay this program has already meant the loss of \$27 million in new State aid to our communities. I urge you to take action so that its benefits can begin to flow immediately to our communities and their citizens.

8. A state land use act to ensure, through improved balance in land development and renewal, that we will benefit from growth rather than be victimized by it.

Health and Water Policy

9. Creation of a Division of Health Care Administration in the Department of Health to attack with utmost vigor the grave problem of skyrocketing health costs. In view of the recent increase in Blue Cross rates I commend this proposal to your attention once again with the greatest urgency.

10. Rationalization of State water policy through the creation of a water plan development board and water board of arbitration.

11. Revision of the process of pressing claims against the State along the lines I have set forth.

Conflict of Interest and Seasonal Worker Measures

12. Adoption of a strong conflict of interest law pursuant to my conditional veto message of Senate Bill #707 of 1969. The provisions of my message with reference to local officials and dealings of legislators with State agencies are especially critical and must be included in any meaningful conflicts legislation. I also call your attention to my proposal for tighter control of lobbying activities.

In acting on the conflicts problem the Legislature should also give careful consideration to establishing appropriate guidelines for State and local administrators for dealing with business concerns, the principals of which have been indicted or convicted of criminal offenses. Government should be in a position where it deals only with legitimate business enterprises. We have witnessed in recent years, however, convictions of individuals holding positions of responsibility in national corporations as well as the indictment of principals in smaller concerns. Obviously a blanket disqualification of all business concerns who may have employed a wrongdoing executive cannot be justified. The governmental administrator, however, should have guidelines clearly enunciated by the Legislature to assist him in making appropriate judgments when confronted by these circumstances.

13. Measures relating to the rights of seasonal farm workers with respect to transportation safety, collective bargaining and visitation.

Election Law Reform

14. Essential revisions in our election law with reference to mandatory use of voting machines in all counties; mandatory mobile neighborhood registration; a longer registration period; improved absentee voting provisions; and the creation of a State supervisor of elections.

With respect to participation in our political process, I must point out to you once again that it is nothing short of scandalous

that more than 1.2 million persons in this State who are eligible to vote, or about 25% of the total, are not registered. The measures I have urged to broaden political participation would help remedy this intolerable condition. It is your solemn duty to work not for constriction of this participation but for its expansion. I therefore ask you to accord action on these measures the highest priority.

CRUCIAL ISSUES FOR THE NEW LEGISLATURE

Above and beyond your prompt consideration of this important pending business I commend your attention to several issues that will weigh heavily on the quality of life in this State during the year and the decade ahead.

A State Income Tax

You are fully aware that a major tax decision awaits this Legislature. Indeed, you were fully aware one year ago that the pressing budget requirements of State government could not be ignored. As I told you in my budget message of last February:

“You should keep in mind that if this Legislature successfully avoids a basic tax decision, that decision certainly will be forced upon future Legislatures.”

Notwithstanding my revenue proposals of last year, you chose to avoid that basic tax decision by accelerating existing revenue collections and increasing “nuisance” taxes.

In place of a forthright and realistic tax solution you opted for a one-year expedient—the accelerated collection of taxes on corporate income and net worth, motor fuels, and alcoholic beverages. To complement this bookkeeping device, which brought no real new revenue to the State, you raised motor vehicle driver and registration fees.

But successful avoidance last year means hard decisions this year. As Governor-elect Cahill warned on October 20, the budget deficit resulting from this reluctance to face fiscal facts last year could well approximate \$200 million. And the actual budget that Governor Cahill will present next month may require a still larger infusion of new revenues.

The choices before you are relatively simple. You can, if you choose, increase the sales tax and remove exemptions from it. But simple logic demonstrates that such action would represent the same kind of temporizing as your decision of last year. Moreover, such changes in the sales tax would only compound its present unfairness and cruelty to those least able to pay—the poor, the elderly, and those who are on pensions or fixed income.

Need for Revenues

Since 1964 I have advocated without success the enactment of a graduated income tax as the fairest and most effective means of raising essential State revenues. The need for these revenues now is even greater than when I first proposed an income tax:

—Medicaid, now in only its first month, is bound to reflect increasing health care costs in future years and should be expanded in any event.

—The Bateman Commission report on State support of local schools reflects a growing consensus for greater State aid and should be implemented.

—Institutions and colleges approved in the 1968 bond issue must be staffed and equipped.

—Our municipalities demand and must receive greater State assistance if local government is to perform essential services.

—The cost of maintaining existing levels of public services will continue to increase.

The graduated income tax is preferable to an increase in the sales tax for many reasons:

—It taxes citizens on the basis of their ability to pay.

—It produces greater revenue and is more responsive to economic growth and inflation.

—It is easily collected, tied as it is to federal income tax returns.

—State income tax payments are 100% deductible from federally taxable income.

Tax Reform

New Jersey's antiquated tax structure must be reformed. By relying so heavily on the local property tax, we force on the homeowner and the small businessman an unfair share of the cost of public services. Moreover, the local property tax creates grave inequities among New Jersey communities. The tax reform required by these circumstances will not be achieved merely by increasing the sales tax or by removing certain exemptions. The only hope for assisting our homeowners is to enact the graduated income tax I have long urged.

Enactment of an income tax is also required if we are to remove other inequities that now weigh on our tax system. Proposals for tax relief for the elderly, fair State payments to municipalities in lieu of taxes, and other useful and deserving reforms simply cannot be put into effect without the reliable replacement revenue that an income tax would provide.

This Legislature has a unique opportunity to respond to New Jersey's pressing fiscal needs. I strongly urge you to accept the fair and responsible course—enactment of an income tax. I urge you just as strongly to avoid cruel and unfair adjustments in the sales tax that will only result in failure to meet unquestioned public needs and the inevitable imposition of an income tax at a later date.

In short, I ask you to use your great power for the good of the people and to set New Jersey's fiscal house in order.

Election Law Reform: Campaign Finance

I have already advised you of my strong hope that you will enact my proposals of last year to broaden political participation in this State. I call your attention as well to a basic defect in our approach to campaign finance. Our laws governing campaign spending promote evasion and hypocrisy by setting unrealistic limits. As you know, the Election Law Revision Commission is to report in April on recommended changes in these laws, and I urge your prompt consideration of them.

At the same time I urge you to amend our election laws to require full public disclosure of all campaign contributions and expenditures. Public confidence in the integrity of men and women in politics can be assured only when the possibility or appearance of purchased influence is removed.

At the same time, we should encourage support for political candidates from a far broader spectrum of citizens. Accordingly, I urge you to work with our Congressional delegation to raise again in Congress the question of a federal income tax deduction for campaign contributions of limited size by private citizens and, if and when you enact a State income tax, to include within it a similar provision.

The Equal Time Problem

Another issue that will require federal action is the availability of free prime television time to candidates for public office. Present law on this question, which requires equal treatment for all candidates, including frivolous ones, makes the allocation of such free public service time most difficult. The limits on television appearances by candidates thus imposed deprive the public of an excellent opportunity to study candidates and issues at first hand and induce major party candidates to rely for exposure on extraordinarily expensive television advertising.

I therefore urge you to lend your full support to efforts to revise the equal time provision so as to place before the public, in prime time, the major party candidates and those independent candidates who enjoy a more substantial base of electoral support than is now required.

I also ask you to encourage our new Public Broadcasting Authority to extend the maximum possible coverage to political campaigns and affairs of government, including, for example, the sessions of this very Legislature. For government in this way will become closer to the people and will be the better for it.

The decade ahead will require of political figures a higher degree of responsiveness to public needs than ever before. And it will require of our citizens a greater degree of participation in and concern for public matters than we have ever known. The reforms I propose are essential to meet these needs of the 1970's.

Audits of Municipal Budgets

I call your special attention to my proposal of last year to vest in the Division of Local Finance of the Department of Community Affairs the same kind of powers held by the General Accounting Office, the agency employed by Congress in the oversight of federal programs. The performance audits contemplated in this measure would be extremely useful in determining the efficiency and effectiveness of local government services. Moreover, they would contribute to increased confidence in local government and greater public willingness to face needs whose legitimacy is clearly established. A related measure to subject county and municipal authorities to a state audit also merits your immediate approval.

These actions, together with a sharp upgrading of the responsibilities of the State auditor, as recommended by the Vieser Commission, will provide the taxpaying public with reliable assurance that tax dollars are being spent wisely and honestly by both state and local governments. I urge your immediate action on these measures.

Education: Handicapped Children and Illiteracy

Continued progress in education at all levels will require your close attention to and support of the programs of the Departments of Education and Higher Education. I call your attention as well to important legislative action in two areas:

1. I urge you to support the forthcoming proposals of Senator Beadleston to expand the scope of the historic Beadleston laws that now help about 25,000 handicapped school children each year. Senator Beadleston is rightly concerned, for example, with the need to develop methods to discover children with suspected handicaps at an earlier age and to keep track of their development so that our schools can anticipate and respond to needs well ahead of time. The Rubella epidemic of 1963 and 1964, which resulted in a severe loss of hearing for a tragically large number of children, is a case in point.

In this connection I urge you to authorize the Department of Health to provide aid to municipalities to initiate a statewide program of immunization shots against German Measles, or Rubella, for all school children.

I also call your attention to the need to mandate special education for all handicapped children at an earlier age and to lengthen the school year for them. Such action may require both increased State aid and additional regional facilities, especially for children who are brain damaged, multiply handicapped, or suffering from severe hearing loss. I ask you to support Senator Beadleston's proposals in this crucial field.

2. I urge you to make New Jersey the first state in the nation to recognize as a matter of legislative policy the right of all citizens to read. The U. S. Commissioner of Education has stated that hundreds of thousands of our adult citizens are caught in the mire of illiteracy and that thousands of young men and women are graduated from high school each year even though they are effectively illiterate. Commissioner Allen has urged that we accept the elimination of this illiteracy as a fundamental national goal in the 1970's, and I ask you to insist that New Jersey will lead the way in this essential drive.

Success in this effort will require far more money, expertise, and concern than are now being concentrated on this grave educational problem. I ask you to sort out our priorities and place first things first. I ask you to make it possible for the 1970's to be remembered as the time when New Jersey, through a quiet revolution in our public schools and a great expansion in our school programs for adults, erased forever the blight and shame of illiteracy.

Capital Punishment

More than five years have elapsed since a majority of the members of the New Jersey Commission to Study Capital Punishment recommended that the death penalty be retained. That recommendation should now be reviewed in light of legislative and judicial developments both in this country and throughout the

civilized world. I propose that a joint executive and legislative Commission be constituted for this purpose.

Among the many factors that such a Commission should consider are the following:

1. Whether the abolition or severe restriction of the death penalty in the 13 states of the United States and the more than 30 foreign countries where it has occurred has resulted in increased criminal activity or greater hazard to the public, or particular segments of the public, such as policemen and prison guards.

2. Whether there is some deterrent effect to the death penalty notwithstanding statistics which disclose that the rate of homicides is not higher in jurisdictions which have abolished it than in ostensibly similar jurisdictions which retain the penalty.

3. Whether any deterrent which the death penalty may have presented is not thoroughly dissipated by seemingly interminable legal delay in the execution of sentence and the apparent tendency toward *de facto* abolition of the penalty.

4. Whether the death penalty and/or the delay in its execution (one New Jersey inmate has spent more than 12 years on death row) result in cruel and unusual punishment in light of evolving societal standards.

I view the study here proposed as urgent notwithstanding the fact that cases pending before the U. S. Supreme Court raise serious questions concerning the constitutionality of death penalty statutes. Assuming the Court finds the imposition of capital punishment constitutionally permissible under existing procedure or under procedures to be devised, it will not have answered the question of the social utility of the death penalty. That question should be answered by the Commission after careful and dispassionate analysis, bearing in mind that the State should not exact the life of any person, no matter how depraved, unless there is clear evidence that the taking of life is necessary to further an essential social end.

A New Housing Policy

As you well know, it is increasingly difficult for New Jersey families to find the decent, adequate, and safe housing they seek. Fully one-fourth of all our housing units are substandard. High interest rates, rapidly rising construction costs, and ever more limited availability of land have slowed housing construction dramatically in the last four years. While New Jersey should be constructing 100,000 new houses annually to replace dilapidated units and to meet population growth, we are building only about 40,000.

Some important action is being taken. In just a few years, New Jersey has become one of the nation's leaders in devising and carrying out housing programs. The Housing Finance Agency has constructed or approved for construction 3,800 apartment units worth more than \$80 million. The State has joined with federal agencies in seeking new, cost-reducing construction and financing methods. Despite our efforts, the gap between supply and need is growing.

As a first step in devising a new housing policy, the Legislature should commit the State to replace all housing destroyed by public construction. It should provide the legal and financial means to live up to that commitment. Thus, houses torn down for highways, new state colleges, urban renewal programs, or institutions would be replaced at approximately the same price levels, size, and quality. The advantages of adopting this policy are many:

—At a time when housing is in short supply, this policy would ensure that public action would not decrease the housing supply, as it may be doing now.

—This policy would improve an imperfect relocation program which cannot now assist those dislocated by public projects because of an inadequate housing supply.

—Generally, such a policy will build housing where it is most needed—in our cities for our poorer citizens.

Protecting Our Environment

President Nixon has now articulated as a national goal for the 1970's what an increasing number of Americans have felt most deeply—the essential need to stop the poisoning of our environment and to restore and safeguard the precious ecological balance that all too often has been so violently disturbed. We in New Jersey, the most urbanized and congested State in the nation, must pay special heed to this national goal. Few tasks before this Legislature in the year and the decade ahead will require more resourcefulness and political courage.

To set the stage for your action in this field on a whole series of fronts, I urge you to weigh carefully, and to hold hearings on, the Environmental Bill of Rights introduced last year by your distinguished former colleague, Assemblyman Robert Wilentz of Middlesex County. The clear focus of the Wilentz proposal on the pressing need to prevent the further scarring of our environment by physical progress must be the focus of this Legislature as well.

I also call your attention to one specific proposal in this field that holds the greatest promise for our region. I refer to the action I hope you will take this year to create a Hudson River Basin Compact that will enable New York and New Jersey to join in the mammoth task of restoring majesty to the Hudson. The groundwork for such a compact has already been laid through extensive staff work in both States, and I urge you to work with Governor Rockefeller and the New York Legislature to make this great venture a reality.

The Forgotten New Jerseyans

When history judges the Hughes Administration, I hope it will record that this was an Administration that gave its best efforts to reveal and resolve the unspoken problems, discrimination, and suffering it found in this State. Let history record that we who have governed during these past eight years set as our goal the protection and uplifting of those New Jerseyans who are truly forgotten—those who are least able to speak for themselves.

When we sought millions of dollars to build new institutions and strengthen our programs of care, the unfortunate children in our institutions, and those who were not admitted for lack of room, could not speak for themselves. This Administration spoke for them.

When increases were sought in the rates for automobile and health insurance, New Jersey motorists and families were not organized to speak for themselves. This Administration spoke for them.

When some sought to divest the State of its interest in more than \$1 billion of tidelands constitutionally dedicated to the School Fund, the school children of our State were not able to walk the corridors of the Legislature in their own defense. This Administration spoke for them.

When seasonal farm workers were denied the most basic elements of human decency, they were not organized to correct the conditions of their own suffering. This Administration spoke for them.

These few examples pinpoint one of the major guidestars of this Administration. I ask you today to cherish that guidestar in the years ahead. **For government will always hear those who speak most loudly**—those with long membership lists and heavy treasure chests. But government must have a special sense of mission, and make a special effort, to hear the ignored and the neglected.

This is a high obligation. I urge you with all my heart to defend the truly forgotten New Jerseyans as we have tried to do. I urge you to protect the many programs we have begun for precisely this purpose—from the Public Defender system to the Public Broadcasting Authority; from the three new Departments of State government to our institutional program.

And in your battle for the forgotten New Jerseyans I ask you to bring to a still higher degree of effectiveness the concept of the public defense. I ask you to work in the years ahead for still broader protection of the public's rights as they are affected by

every agency of State government. This is your sworn and sacred duty.

* * * * *

In leaving this office and in trying to say goodbye, I have been groping for words to express the respect and affection I feel for the people of New Jersey—people of all parties, of every condition, and of every part of this magnificent State. Perhaps I can best say what I feel in the words I used in my first inaugural address just eight years ago:

I am conscious of a heavy debt to my State, for it is here that I have lived my life and had my being; where I have served as a judge; where I have practiced my profession; where I have reared my family; where I have touched the hands of friends.

It is with deep awareness of this obligation that I approach my part in the major tasks ahead.

While we are only men, yet with the help of God, whose ministers we are, let us act together in the interest of the State we love, to strengthen and protect the heritage we hold in hand for ourselves and for succeeding generations.

Goodbye and God bless you.

RICHARD J. HUGHES,
Governor.

January 13, 1970.

WHEREAS, January 22, 1970, marks the 52nd anniversary of the proclamation of the free and independent Ukrainian Republic, and the 51st anniversary of the Act of Union by which Western Ukraine was united with the Ukrainian National Republic in Kiev; and

WHEREAS, Although Ukraine is presently under forcible occupation by Communist Russia, the love of freedom lives on in the hearts of the Ukrainian people whose heroic resistance to oppression continues unabated; and

WHEREAS, Their struggle for freedom and independence is typical of the struggle of all freedom-loving peoples everywhere, and strongly emphasizes for us, the free Americans, that the price of freedom is eternal vigilance against the continuous aggression of Communist Russia which now mortally threatens the security of the United States and all other free nations of the world; and

WHEREAS, In this Nation, citizens of Ukrainian descent have been in the forefront of the battle against Soviet Russian colonialism and imperialism; and

WHEREAS, Ukrainians in America, upon the occasion of this important anniversary, will honor their long-suppressed kindred by appropriate ceremonies and gatherings, we believe it would be fitting for all citizens of New Jersey who as Americans cherish their own freedom and champion those who are deprived of liberty, to join in the observance

and commemoration of this day. Such a demonstration on the part of our fellow-Americans would strengthen the hopes and beliefs of the Ukrainian people in the free world's sympathy for their plight; now, therefore,

Be It Resolved, That January 22, 1970, be observed as Ukrainian Independence Day by the General Assembly of the State of New Jersey;

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly of the State of New Jersey and attested to by the Clerk of the General Assembly be forwarded to Ukrainian citizens of the County of Passaic.

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: February 16, 1970. }

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:30 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Budget Message of His Excellency, William T. Cahill, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was taken up, and

Mr. Parker moved that the General Assembly concur in the Senate resolution.

Which motion was adopted.

Mr. Parker moved that the General Assembly recess for the purpose of a joint session.

Which motion was adopted.

The Senate and General Assembly met in joint session.

Senate President Bateman called joint session to order.

Governor Cahill delivered his Budget Message to the 194th Session of the Legislature.

BUDGET MESSAGE

Mr. President, Mr. Speaker, Members of the Legislature, and Distinguished Guests:

The Governor of New Jersey is not unlike the mythological Janus in the role he plays in the presentation of his Annual Budget Message to the Legislature. He must look backward to what has and has not been done in the State of New Jersey and forward to what should and must be done. This particular Budget Message has been especially difficult for me, not only because it is my first Budget Message, but because of the relatively few days available to me between my inauguration on January 20th and the 16th of February, the required date by law for the presentation of this Budget Message.

Not only did the vastness and complexity of our governmental and fiscal structure prove formidable, but the previous lack of attention to necessary revenue producing legislation presented an immediate challenge to my leadership and the courage and fiscal responsibility of this Legislature. Faced with an impending budget deficit of approximately \$300 million, I had to make an immediate decision in order to carry out my constitutional mandate to present a balanced budget. The enormity of the pending deficit reduced my options.

I could have recommended an income tax or an increase in the presently existing sales tax. I chose the latter, recognizing that the former was politically impossible at this time. The balance of the tax package resulted from conferences, discussions and deliberations with the leadership of both houses, and, in my judgment, represented the best possible solution to our fiscal crisis.

My decision, thus made, presented to you, the Legislature, two choices. You either voted for the tax bill or against it. In voting against it, you were likewise faced with two

choices. You could state convincingly that you favored an income tax over an increase in the sales tax, or you could say, unconvincingly, if you faced up to the facts, that other ways were available to raise the required funds. Some, for supposed and perhaps actual future political advantage, some for supposed or even real personal persuasions, voted in the negative. Considerably more than a majority of you in both Houses accepted my recommendations and supported this necessary legislation, sharing with me reluctance and regret, but recognition and conviction of the need and essentiality. And so, my friends, as a result of our joint action taken this past Monday, I can, as your Governor, present to you today a balanced budget with an adequate but not excessive surplus, that, with practiced economy and increased efficiency, should permit a responsible approach to the needs and problems of New Jersey.

This 1971 fiscal year Budget totals \$1,590,118,803, larger, of course, than we would wish, but smaller than the urgent needs of the State truly require. It is larger in amount than any previous budget because our population is larger than ever before in our history and the requirements for State aid to local units of government and to the proven needs of our citizens is greater than ever before. This budget does not reflect what we want to do, but what we can do with the resources available to us.

Briefly, the total resources, recommendations and projected surplus shape up as follows:

THE BUDGET IN BRIEF

<i>Resources</i>	
Surplus, July 1, 1970 (after provision for supplemental requirements herein)	\$125,375,167
Revenues Anticipated	1,540,016,422
Total Resources	\$1,665,391,589
<i>Recommendations</i>	
General State Operations	\$659,726,367
State Aid	856,945,354
Capital Construction	73,447,082
Total Recommendations	1,590,118,803
Surplus, June 30, 1971	<u><u>\$75,272,786</u></u>

The Budget projects for June 30, 1971, an ending surplus of \$75 million. Frankly, this figure is minimal. It is only about 4½% of the resources expected to be available next year. It compares with the actual ending surplus of fiscal year 1969 of \$127 million, and the ending surplus of the current fiscal year, which we estimate will be \$125 million. Providing for such a surplus, even though smaller than in prior years, is consistent with sound fiscal policy. First, it gives us some protection against failures in revenue production that we may experience due to the possible continued slow-down of the economy. Second, it protects us in the event that the apparent continuing inflationary trend should erode our ability to meet our obligations out of the appropriations recommended. Third, as I will explain in this Message, I intend to submit to the Legislature at a later date additional recommendations for new programs, which will have the effect of a further reduction in the projected surplus.

Let me assure you that I intend to exercise every economy which I find to be practicable in the operation of State government now and in the coming fiscal year. I am convinced that substantial economies can be achieved. Our success in this effort will provide us with a sound base for future growth.

Three Prong Program

To implement these desired economies and promote efficient government to the maximum, I intend to implement the following cost-free, three-pronged program:

First, I intend to use the influence of this office to promote and encourage the development and adoption by the Federal government of meaningful Federal-State revenue sharing programs. If the Federal government is unable or unwilling to assume the burdens of the States to the extent that is necessary, then it is my judgment that it must give us the money through revenue sharing so that we may provide our own solutions. The President has already recognized the necessity for a shift in the responsibility of government, and has placed several constructive proposals before the Congress. These proposals will receive the

strong support of this administration and hopefully of New Jersey's representatives in Congress.

Second, in order that New Jersey might at last begin to receive its maximum share in the myriad of Federal aid programs, I intend to carry out my pledge to establish in Washington, D. C. an office of the State of New Jersey. Its job will be to maintain daily liaison with all of the Federal departments, agencies and bureaus of government; to determine what programs are available to aid State, county and municipal governments; to determine what programs are available to school districts and private citizens' groups engaged in community and public service projects; and to advise all such interested parties of the same, while ending once and for all wasteful duplication and multiplicity of effort. I believe that once this office begins functioning, it will generate into the State an unprecedented flow of new Federal funds and programs of assistance.

And Third, I can now report, with great enthusiasm, a new and vital contribution which the private sector of our economy is prepared to make to assist us in bringing about the hoped for renaissance in State government. Here is the plan: in the very near future, we will begin in New Jersey, with the substantial assistance of those in commerce and industry, an in-depth study of every area and every facet of our operations for the purpose of remodeling, updating, and revitalizing our State government.

A consulting firm of national proven ability will be retained to direct scores of experts loaned by the various businesses, industries, and professions of the State of New Jersey, who will spend approximately three months in State government in assigned areas where they can utilize their particular skills and expertise. The consulting firm will make the assignments, select the experts needed, assemble the facts, make the evaluations and prepare the recommendations. It is suggested that the cost for professional guidance and salaries of personnel will approximate one million dollars, and that conservative estimates indicate a savings to the State of at least twenty million dollars annually. But the important thing is that it will not cost the taxpayers of the State of New Jersey one cent. The

business leaders of this State have pledged themselves to give to the State government men and women from their respective companies to do this work at no cost to New Jersey, and they are also prepared to pay the cost of the consulting firm.

The experiences of other states in similar projects persuades me as to the efficacy and productivity of this endeavor. Its savings to our citizens should be reflected in future State budgets for the next decade.

GENERAL STATE OPERATIONS

My recommendations for general State operations include significant increases in next year's counterparts of present programs for State Police, motor vehicles, work incentive, rehabilitation, higher education, institutions and agencies and State employee salaries and benefits. The aggregate increase for general State operations is \$98.5 million.

Likewise there is an increase in State aid to local districts of \$123.4 million, representing next year's counterparts of this year's programs for Medicaid, aid to dependent children, mental health, aid to local school districts, county colleges, local libraries, the teachers' pension fund, crippled children, property and railroad tax replacements and assistance for community affairs programs.

I have increased recommendations for capital construction by \$9.9 million, including the correction of conditions at the Martland Hospital in Newark, medical college construction, construction of State Police and motor vehicle facilities, improvement of State park and recreation facilities, miscellaneous construction and advanced planning at our State colleges, and highway construction. With respect to the Martland Hospital, which is the clinical facility for the New Jersey College of Medicine and Dentistry in Newark, my recent inspection tour indicated the pressing need for improvement and modernization. This is necessary not only to insure an efficient and modern four-year medical school in Newark, but to emphasize our commitment to the health needs of the community and to provide this medically deprived area with qualified and adequate medical personnel

and treatment facilities. We face a very real medical manpower crisis in New Jersey, as well as in the Nation, and it will be a key goal of this administration to develop programs to alleviate this shortage. We must consider ways to expand existing medical schools to accommodate more students; we must train more paramedical technicians and nurses, and find ways to induce more doctors to pursue clinical rather than pure research careers. The needs in our urban areas and State institutions are particularly acute and have truly reached crises proportions.

In the near future I shall be sending you a number of special messages, recommending appropriations for some of the new programs which I believe are essential to our State and our people.

Tax Reform Ahead

I shall announce later today the structure and format of a Governor's Tax Policy Committee to examine the entire tax structure of New Jersey and to recommend to this Legislature appropriate revisions so as to accommodate our needs in the most equitable, efficient, and economical method possible. I would hope that new concepts in the field of taxation will be studied, that areas of State responsibilities will be evaluated and delineated, that the study will be in depth, and the findings presented in such a logical, persuasive manner as to insure implementation by this Legislature. Tax reform has been for years the cry of those who oppose both the income and the sales tax. It has been represented by a few that the savings by such a revision may indeed eliminate the need for either of these broad based taxes. While I do not share that optimistic and unrealistic viewpoint, I concur wholeheartedly that such a tax study is not only overdue, but can constructively contribute to tax justice and to the desired needs of the future.

I intend to present to this Legislature in the months ahead a number of special messages which will detail plans already in formative stages of development on such vital issues as organized crime, drug addiction, pollution and the environment, transportation, the Meadowlands and the entire field of economic development, medical manpower, court

reform, all aspects of our motor vehicle problems and similar, current, and vital subject matters, which recommend themselves for discussion between the Executive and Legislative branch of this government.

It is fair for me to state that many of the requests by the department heads of this government that were denied can indeed be justified and would, in the ordinary course of events, be approved if adequate funds were available. Most certainly in the field of law enforcement, in education, in medicine and health, and in the improvement of our environment, new commitments are indicated and must be considered as soon as funds are available. In the days ahead, I trust that my new cabinet officers will join me in discussions with the Appropriations Committee so that the details of all departmental requests will be completely understood, that every effort will be made to assist the Appropriations Committee in eliminating from this Budget any funds not actually required for the efficient operation of our State government. The taxes paid by our citizens will, I assure them and you, be spent prudently.

I also want to make it clear that because a program or appropriation is in this Budget is no guarantee that it will be in next year's Budget. During the coming year, we will be conducting serious evaluations of the workings of all departments of government. We will be looking for excellence of performance, and not for numbers of administrators. Moreover, I am reminding all of my Cabinet, their administrators and all those officers and employees in all the departments who have anything to do with State spending that APPROPRIATIONS ARE NOT MANDATES TO SPEND. And I will require them to give the same consideration to the spending of State money as their own.

Continuing Budget Development

In recent years, the Bureau of the Budget has participated only to a limited degree with the various departments in program planning and development. There should be more of it throughout the year. I believe the State is placed at a disadvantage when the contents of budget requests can be considered only between the dates on which they are form-

ally received and the deadline for presentation of the Budget Message to the Legislature. In short, budget decisions should be in a state of informal development and formulation long before the formal budget hearings. This can be accomplished by better communication and liaison by the Budget Bureau with the requesting agencies throughout the year.

Although I expect gratifying results from the in-depth study which will soon be underway by the consulting firm and the business community into State government to improve and modernize operations, I am not unmindful of areas which require immediate attention. As you know, I have already ordered the elimination of all unnecessary out-of-state travel, a review of vacancies before they may be filled, a review of our capital expenditures, the curtailment or cancellation of unnecessary or ornate, verbose and voluminous brochures, pamphlets and other publications, a reduction in the number of telephones and tolls and have insisted that their use should be limited to official business.

Lease agreements entered into by the State with private owners are under active investigation. Early returns indicate a failure in some areas on the part of landlords to provide those services called for in the lease agreements. As a result, there is underway an active study of all the real estate holdings and leaseholds of our State. In this way we will be in a position to plan intelligently for a better utilization of existing space and plan wisely for the space that will be needed in the future.

There are many other efforts which we can make for improvement. First and foremost, it is essential that we reconsider all our programs, sub-programs and program elements and establish an order of priority. I am asking the members of my Cabinet to prepare such a listing including a synopsis and significant data on effectiveness, along with the appropriations applicable to each. This should furnish me with an improved perspective as to what the State is actually accomplishing and what government operations of low priority may be curtailed or eliminated.

These are some of the specific areas to which we should direct our concern:

We should take a hard look at the utilization of our mental hospitals. Our mental hospital populations have been decreasing and a study in utilization and reassignment of objectives is clearly indicated.

The entire area of State institutions, their needs and present functions, their utilization and possible consolidation, require urgent attention. We must also review our divisional structure and even the present composition of our State departments. Many areas suggest the need for change, consolidation, and even elimination. You can be assured that this administration will devote itself to these tasks recognizing the absolute importance of economy and efficiency in government. While the areas requiring attention are obviously too numerous to mention, and while time has not permitted us a complete evaluation of all areas of State government, I am convinced, based upon early observations and partial investigations, that change is needed and improvement attainable.

A classic illustration of the need for modernization, innovation and improvement is the operation of the Motor Vehicle Division, with emphasis upon auto inspections, driver license procedures, and a cooperative and unified approach with the Department of Transportation and other departments of government of areas of mutual interest. In a word, action is needed, and this administration is prepared to, and I assure you will, take action.

LAW AND PUBLIC SAFETY

Our concern is for adequate resources to support this Department's vital programs for law enforcement, traffic safety, civil rights, consumer protection, and regulation of the professions. This Budget recommends \$51.3 million in operating funds for the Department of Law and Public Safety, an increase of \$4.7 million over the current year.

In the Office of the Attorney General, the command post of the Department, there is a significant increase of \$400,000 for continuing development and the initial stage of installa-

tion of the Statewide Law Enforcement Information Network System (SEINE), a modern and powerful tool for departmental management as well as for law enforcement, and which with Federal matching funds is being phased in over a five-year period.

In the Division of Law our programs for consumer protection are being strengthened and we are speeding the processing of claims against the State to reduce the backlogs of Workmen's Compensation claims from six months to six weeks.

To realize more fully the benefits of our State civil rights laws I am recommending eight added positions in the Division on Civil Rights, to encourage affirmative action and to handle rising backlogs of cases.

For the Division of State Police I am recommending a total of \$21.3 million in operating funds, an increase of \$1.7 million over the current year. Of this increase about one million dollars is to cover the cost of normal salary increments, and to provide 60 additional civilian personnel needed in headquarters, identification, laboratories, communications, criminal investigation, narcotics control, troop operations, and for State helicopter maintenance.

Improved Communications

Increases totalling \$338,173 are being recommended for a major program of expanding the capability of the State Police communications system. This program includes a complete changeover of all vehicle radios to six-channel units with related upgrading of dispatching and transmission equipment in all field command centers, improvements to the telephone system, and an automatic high speed teletype system connecting all State police, municipal police, the National Crime Information Center, and the Division of Motor Vehicles' teletype receivers.

In addition, capital funds of \$350,000 are being recommended for planning and construction of regional crime laboratories and for improved access roads to State Police facilities.

For the Division of Motor Vehicles this Budget recommends operating funds of \$21.9 million, an increase of \$2.2 million over the current year. This will give added support to the Division's critical programs for traffic safety in the following areas:

—an increase of \$792,000 for normal salary increments and for 59 added positions to (1) accelerate scheduling of driver suspension hearings; (2) reduce waiting time for driver road tests; (3) improve audit and control procedures for Division revenues; (4) speed the processing of traffic accident reports; (5) tighten enforcement of laws and procedures concerning financial responsibility and uninsured motorists; and (6) implement recent legislation for increased revenue from out-of-State truckers, pursuant to Chapters 119 and 120, P. L. 1969.

—an increase of \$311,868 for full year implementation of the Liability Insurance Certificate Program enacted by Chapter 321, P. L. 1968.

—an increase of \$1,039,100 for the added cost of reflectorized license plates on a full-year basis, pursuant to Chapter 363, P. L. 1968.

In addition, capital funds of \$189,000 are being recommended for improved access to the Paramus Vehicle Inspection Station and for the Division's advance capital planning studies.

The Police Training Commission programs to upgrade the training of law enforcement officers are being maintained at a continuation level for police scholarships, for the Police Cadet program, and for management consultation services to local police agencies. This Budget also provides for continuation levels of support to the Divisions of State Medical Examination, Alcoholic Beverage Control, Weights and Measures, and Professional Boards.

INSTITUTIONS AND AGENCIES

I am recommending an appropriation of \$165.2 million for this Department which represents increases of \$3.9 million for the Division of Mental Retardation, \$1.8 million for the Division of Mental Health and Hospitals, \$2.3 million for the Division of Correction and Parole, \$2.9 million for the Division of Public Welfare, and \$6.5 million for the Division of Medical Assistance and Health Services. The Office of the Public Defender, which is assigned to the Department for administrative purposes, is recommended for a \$1.9 million increase.

The 1964 (\$50 million) and 1968 (\$100 million) Bond Issues have a significant impact on this Budget. The completion of construction and reconstruction projects and other improvements which they made possible signal requests for additional operating expenses. These expenses, when combined with the effects of the escalating Consumer Price Index and administration of the Medicaid program, are primarily responsible for the \$20 million increase recommended for this Department's operations.

Mental Retardation

The Hunterdon State School is in its first full year of operation and expects to be at full capacity by the end of fiscal year 1970-71. Construction of all cottages was completed in October, 1969, providing a total capacity of 834 patient beds. The recommendation for 56 new positions should complete the staffing begun in prior years.

This Budget includes initial recommendations for the new Somerset State School. Construction of the first phase to provide 280 beds out of the 1968 Bond Issue is expected to start next fiscal year. Positions are recommended to effect a smooth transition from planning to programming for the operations of the Institution. It is expected that the school will open during fiscal year 1971-72.

These two new schools will provide some impact on the waiting list that numbered 1,176 as of December 31, 1969 and perhaps permit us to accommodate other patients now

cared for in private institutions and homes out of other State appropriations.

In contrast to our declining patient population in the mental hospitals, the population of our schools for the mentally retarded is rising. In fiscal year 1967-68, the average daily population was 6,390. This rose to 6,437 in fiscal year 1968-69 and is approximately 7,000 in fiscal year 1969-70.

Day Care Center Growth

Another significant development in caring for the growing population of mentally retarded is the growth of Day Care Centers. This activity started six years ago serving 19 children in a pilot program in Essex County, and has now grown to a Statewide program serving more than 510 children. In the past six years, 680 children have been admitted to the training program with more than 170 of them receiving training sufficient to admit them to public schools. Since the beginning of fiscal year 1968-69, the State has operated six centers. These centers were constructed with monies provided in the 1964 Bond Issue and matching Federal funds. An additional three State centers are presently under construction with completion expected by September 1, 1970. Five more centers are expected to be completed by January, 1971, which will increase the State-wide capacity to train 880 retarded children. An increase of \$904,000 is recommended to provide for training the additional 211 children and to provide equipment for the eight new centers. All centers contain specially designed facilities for the training of children whose handicaps include severe physical disability in addition to retardation.

An increase of \$51,000 in the cost of family care for retarded children results from making provision for 25 additional children and authorizing a rate of \$1,620 per year per child for the entire family care population. The Purchase of Residential Care program for retarded children increases by \$285,000 to \$2,160,000. This program provides opportunities for emergency placement in private facilities for whom space cannot be found in State institu-

tions. At the end of fiscal year 1968-69, 517 children were in such placement. The recommended increase in funds will support a case load of 600 at an annual per capita rate of \$3,600.

Correction and Parole

One of the serious problems confronting the Division of Correction and Parole is the overcrowded conditions in the prison complex. These conditions are not expected to be solved completely by the opening of the new medium security prison at Leesburg. Commitments from the courts have attained an all-time high and releases from the institution are slowing down, especially releases involving offenders for assault, for rape or other crimes of violence.

With this backdrop, I recommend an appropriation of \$8.5 million, an increase of \$1 million over the current year, for all costs at the prison locations at Trenton, Rahway and Leesburg including custodial staff to reactivate a section at the Trenton State Prison and all other increased operational needs. I am also recommending additional custodial staff at Yardville Correction Center, more personnel in the Parole Bureau, and instructors at the Reformatory for Women at Clinton.

The State Prison at Leesburg is now scheduled to open in April, 1970. Present construction provides an additional 336 beds to the overcrowded prison complex. This facility will not produce any significant relief to the overcrowding at the Trenton and Rahway prisons. Construction to begin in the 1970 fiscal year on Phase II at this institution will provide an additional 168 beds. The recommendation of \$2 million for a complete year of operations reflects an increase of \$500,000 over the 1970 appropriation.

Mental Health

Although plagued by large numbers of vacancies in the critical areas of treatment and care of patients, our State mental hospitals continue to perform on a high level as evidenced by the fact that all four hospitals are fully accredited by the Joint Commission on Accreditation of Hospitals and by the Council on Medical Education of the

American Medical Association. However, the State has contracted with the American Psychiatric Association to survey and report on the effectiveness and delivery of mental health services, including the role of the State hospitals, and to ascertain what steps should be taken to elevate treatment.

The intensified treatment programs in the mental hospitals are continuing to reduce further the patient population. In fiscal year 1967-68, the average daily population was 10,495; in fiscal year 1968-69, it was 9,480; in fiscal year 1969-70, it is estimated to be 8,555 patients. This trend is expected to continue with added emphasis on treatment not only at our State hospitals but in the community, at outpatient clinics, at community health centers and at general hospitals, as well.

Construction

The 1968 Bond Issue provided \$100 million in funds for institutional projects, including new buildings as well as reconstruction and other projects. Overcrowding at Vineland State School will be relieved by the expected completion in March, 1971 of five new cottages and a new infirmary. New multi-purpose buildings will be completed in September, 1970 at the Arthur Brisbane Child Treatment Center, and in December, 1970 at the Glen Gardner Sanatorium for Chest Diseases.

The Soldiers' Homes at Menlo Park and at Vineland are increasing their capacities to serve eligible veterans through the addition of nursing care facilities. The first 100-bed unit at Menlo Park is expected to receive patients in April, 1970 with an increase of \$243,841 over the 1970 appropriation for the operation of this unit. The second unit is scheduled for completion in fiscal year 1971-72. Vineland Soldiers' Home's second 100-bed unit is scheduled for completion in April, 1971. This Budget carries a recommendation of \$46,877 for initial staffing and funds for three months' operation at Vineland.

Child Care

The care of infants and orphaned, mistreated and crippled children is covered under a number of different programs and budgets.

My recommendation provides for the boarding of 11,150 children in institutions and foster homes as well as day care centers funded in the Child Care—State Aid budget. To keep these children in such facilities, we must pay increased rates per child. Costs and competition for facilities require these increases.

The Budget provides for an increase in the average number of children under supervision of the Bureau of Children's Services from an estimated 20,400 children in fiscal year 1969-70 to an estimated 21,430 in fiscal year 1970-71 at an additional expense of \$300,468 for 84 new positions.

WIN Program

The child care responsibility under the WIN program is assigned to the Bureau of Children's Services in the Division of Welfare.

Currently, there are 2,900 children cared for in contract day care homes or day care centers. This number is expected to average 7,600 in fiscal year 1970-71 as the 3,000 training opportunities turn over and more mothers enter the training and employment phases of the program.

The recommendation of \$1,901,250 represents the State's 25% share of the cost of providing this service during fiscal year 1970-71. The Federal government pays 75%.

Most of the preliminary work of screening and qualifying candidates for the program is performed by the County Welfare Board. Procedures and guidance for this function are provided by the Division of Welfare.

Presently, studies are under way to determine how many individuals have been removed from the welfare rolls or have had their welfare reduced as a result of the WIN program.

Legal Representation for Indigents

There is an increasing workload related to providing legal services for juveniles. There were 9,990 total cases added during fiscal year 1968; 13,812 in fiscal year 1969; 18,590 estimated in fiscal year 1970; and 20,800 estimated in fiscal year 1971.

As a result of these factors, the budget recommendation provides for 354 budgeted positions in fiscal year 1971 versus 182 in fiscal year 1970 and for legal and investigative services in the amount of \$1,519,343. In all, next year's recommendations are for \$5,017,394, an increase of about \$1.4 million over funds expected to be available this year.

Public Assistance

The estimated case load for fiscal year 1970-71 is 434,000 persons, an increase of 65,000 or 17.7% more than the current year's estimate.

Total recommendations for public assistance next year are \$144,733,000 as compared with \$127,489,000 for fiscal year 1969-70, an increase of \$17,244,000.

If it becomes necessary, I am recommending funds for increases within the categorical assistance programs reflecting the rise in the cost of living between November, 1968 and July, 1970. This will enable these individuals to maintain the living standard within the authorizations allowed in the various programs. It will also make it possible to establish overall grants for welfare clients rather than multi-part grants.

Some important facts to keep in mind when considering the average assistance grants in New Jersey is that in the Eastern United States, only New York City's cost of living exceeds New Jersey's according to consumer price indices for 1969. In money payments per recipient, New Jersey's rank as compared with other states is as follows: Aid to Dependent Children, 1st; General Assistance, 1st; Aid to the Disabled, 9th; Aid to the Blind, 10th; and Old Age As-

sistance, 12th; according to Public Welfare Statistics of the United States Department of Health, Education and Welfare for June, 1969.

Aid to Community Mental Health Services

The increase of \$1,650,000, in the Community Mental Health Services—State Aid account results from Chapter 74, P. L. 1969 which increased the per capita reimbursement for community mental health projects from 25 cents to 50 cents.

Medicaid Program

On January 1, 1970, New Jersey began operation of its program to pay for necessary medical services for the less fortunate inhabitants of our State under Title XIX of the Federal Social Security Act. As you know, New Jersey's program, unlike that of New York and some other states, is limited to persons receiving or eligible for welfare under the categories of that Act. The estimated case load for fiscal 1970-71 is 454,800 persons or one out of every 16 residents. The total cost of payments to providers of service to that case load is estimated at \$159,320,000, of which \$75,995,000 is Federal funds and \$83,325,000 is State funds. The composite annual cost of aid payments is estimated at \$350.50 per covered person.

The expense of the aid program can be broken down into two classes: those who require long-term (nursing home) care; and those who require normal medical services (hospital care, physician's services, etc.). The first group, while comprising only 3% of the covered persons, represents 57% of the money payments to providers of service.

The fiscal agents and the Division have a system to record important data concerning the nature, volume and other information of the claims. This data will enable detailed analyses to be made of New Jersey's demand for services and permit us to correct tendencies to abuse the services offered.

The estimated cost to administer Medicaid is \$11,215,196 of which \$6,255,000 is Federal matching funds. More than two-thirds of this money is payable to third-party fiscal agents, Prudential and Blue Cross. The administrative overhead expense of our program appears to compare favorably with other states when taken as a percentage of the total cost of the program.

The invitation to fraud is obvious. Let me sound a warning! Fraud will not be tolerated—wherever it exists! And the fiscal agents will be expected—will be required to be prudent, diligent and alert! Those who participate—the recipients, the physicians, the nursing homes and hospitals, the pharmacists—*all* will be expected to do likewise!

Professional staff will exercise control to prevent unnecessary cost escalation. Analysis by professional medical personnel retained on a consulting basis will be carried on in the 26 local district offices established to administer the Medicaid program.

HEALTH

As requirements for health services change and take on new dimensions, programs and budget recommendations must change to meet new demands. The widespread concern about our environment, the narcotics problem and the increasing cost of hospital and convalescent care cannot be ignored.

Improvement of the Environment

While the control of air pollution has been given high priority in recent years, the efforts to control water pollution have not kept pace. Now, with Federal and State funds assured for construction of sewage facilities, progress can be made during fiscal year 1971 toward solving the critical water pollution problem.

In addition to our State's efforts to control air and water pollution, we are sharing with New York and Connecticut the expenses of the Interstate Sanitation Commission.

Narcotic and Drug Abuse

My investigation of our existing narcotic and drug abuse program persuades me of its inadequacy and ineffectiveness. It is underfinanced, and it is undermanned. It is a mere facade without substance.

Recently enacted legislation has not been implemented, and there is little direction and no leadership. My inclination was to implement immediately the legislation by appointing an Executive Director and request additional appropriations, particularly in the methadone program. I concluded this was inadvisable, and that the wise course was to suggest appropriations only when an effective program was organized and qualified personnel were available. Therefore, a concentrated effort is now underway to ascertain the best way to combat this rising threat to our young citizens' health and future. The entire subject matter, with a detailed program and suggested additional legislation and appropriations will be submitted to you through the medium of a Special Message. I solicit your suggestions and assistance in developing a model program in New Jersey. The need is great, and early action is essential.

It is not enough to prevent additional persons from becoming addicted to narcotics. Strong measures must be taken to advise, direct and treat persons who have already become addicted to the drug habit. With the passage of the State Narcotic and Drug Abuse Control Act of 1969, the responsibility for unifying all efforts in a comprehensive program to control addictive drugs and to combat the effects of the disease of drug addiction was assigned to the Department of Health. The recommendation of \$475,000 for the Narcotic and Drug Abuse program in the Department of Health represents largely a continuation of some of the programs formerly budgeted under the Department of Institutions and Agencies.

Also, there is recommended under Health—State Aid, a sum of \$600,000 to finance county drug addiction treatment centers throughout the State. This will provide for 14 centers as compared to the nine centers currently funded.

There are a number of on-going programs in various other State agencies such as services provided at the Neuropsychi-

atric Institute and at the New Jersey College of Medicine and Dentistry. The evaluation, coordination and expansion of these programs will be one of the first projects of the newly appointed Commissioner of Health.

Beyond this, the entire area of narcotics abuse, education, and rehabilitation is another area which will soon be the subject of a special message. I will, at that time, review existing laws relative to narcotics and recommend additional new programs consistent with those discussed during my campaign for Governor.

Alcoholism

While alcoholism does not receive as much current publicity as the narcotic problem, it is nevertheless a serious social and economic problem within New Jersey. My recommendation includes a sum of \$50,000 to open another center for the treatment of alcoholics.

Improvement of Delivery of Health Services

If we are to reduce what is expended for very costly hospitalization and convalescent care, we must do more to preserve health and minimize sickness.

For this reason, my recommendation includes an additional \$1.2 million in the Health—State Aid account for greater support of local health services. Also, my recommendation provides for \$300,000 for urban health centers, the same amount as appropriated for fiscal 1970 to demonstrate and assist in the development of new methods of health care in health centers or other outpatient centers in critical urban areas.

During the current year, commitments have been made to establish centers in Newark and Trenton.

Crippled Children

I have included an increase of \$628,000 for the Crippled Children's program to meet hospital and convalescent care costs which may rise to as much as \$100 and \$50 a day respectively. This is necessary because there is a fixed level of Federal support which means that the State must absorb

the increased costs. I want, here, to thank publicly the New Jersey Medical Society and its members for continuing to provide free services to our crippled children.

TRANSPORTATION

I am encouraged by recent events to expect some improvement in the development of necessary additions to our public transportation facilities. Meetings with the Governor of New York and officials of the New York Port Authority have encouraged me to anticipate some relief for our neglected commuters.

I have requested a reevaluation of our entire subsidy program by our new Commissioner of Transportation. I have ordered an immediate reappraisal of our priorities in highway improvement and have emphasized the absolute need to reduce, wherever possible, traffic congestion on our more highly travelled highways.

For the operation, construction and State aid responsibilities of the State in all fields of transportation services, I am recommending \$127 million, an increase of \$6 million.

To assure continued service to the 30,000 commuters that use the railroads of this State, an amount of \$10.3 million is allocated to continue the subsidy necessary to assure minimum service under contracts between the railroads and the Commuter Operating Agency. Another public transportation need is the continued support of local bus companies. The Legislature in 1969 recognized the urgency of providing assistance to bus companies and passed interim legislation permitting the State to contract with these companies in order to avoid the loss of transportation service upon which a large portion of our population depends for their livelihood. Legislation should be enacted to recognize the continuing responsibility of the State toward this service.

In order to assist the bus companies of the State, funds for demonstration projects to improve services and attract customers have been requested by the Department. Without any additional funds, this Budget recommends that these projects be carried out using available balances in the

Division of Public Transportation Services for such purposes.

An amount of \$31.4 million is recommended for grants to local governments under the various State aid programs of this Department. \$15 million is again recommended as the State's share in constructing a State aid road system to provide the necessary connecting links between the main highway system and the local streets of our communities.

In the area of capital construction, the State still has \$211.6 million available from the 1968 Bond Issue which can be applied toward its goal of providing the additional highways needed to serve the 3.7 million motor vehicles registered in New Jersey. In addition, this Budget recommends an amount of \$17.8 million to be used along with balances from present appropriations to match completely the Federal aid available to New Jersey for the 1971 fiscal year. This will permit the State to continue construction on the interstate highway system and to take advantage of Federal assistance where it can be applied to our best advantage on the other roads of the State. And I have insisted that we do just that!

The Federal government has a practice of making funds available to the State through advance allocations. This Budget contains \$11.9 million for matching a portion of such advance allocations when they become available, thus reducing the time needed to complete construction on a given piece of highway.

An increase of \$1 million, to a total of \$3 million is recommended for major resurfacing, reconstruction, and repair of existing State highways. This sum will permit upgrading many of our older roads.

CONSERVATION AND ECONOMIC DEVELOPMENT

Funds in the amount of \$28.7 million are recommended to carry on the conservation of our natural resources and promotion of economic activity through the programs of the Department of Conservation and Economic Development. This sum includes \$931,000 for the critical planning and operating responsibilities of the Division of Water Policy and Supply. Long-range planning for water needs of the State represent an area of mutual concern and co-

operation between the State of New Jersey and the United States Geological Survey. State and Federal funds equally contribute to investigating our ground water resources and to the constant monitoring of our streams to determine the availability of surface water and to obtain needed data for protection against flood conditions.

One of New Jersey's greatest natural resources is in the land itself. By putting this land to use for recreational purposes our citizens can enjoy their well-earned leisure hours in the outdoors. An amount of \$4 million is recommended for capital construction projects at our State parks. This sum will be supplemented by as much as \$1.5 million from Federal government programs. Such sites acquired under the original Green Acres Program as Lake Wawayanda, Monmouth Battlefield, Allamuchy Mountain are still relatively inaccessible to the public. While I hope to see the Spruce Run recreation area in limited operation this Summer, we must invest additional capital there and at Round Valley for maximum visitor use of these beautiful lakes.

The State has, for many years, through its Division of Shell Fisheries, been engaged in a program to increase the development of the shellfish industry in New Jersey. This Budget recommends an amount of \$523,000 for the enforcement of health regulations relating to the harvesting of shellfish from polluted water; protecting the leased shellfish beds from poaching; and participating with the Federal government in the regeneration of shellfish beds.

Funds of \$1.3 million are included for the operation of the Bureau of Forestry. This unit not only provides consulting service to public and private land owners on the management of their woodlands, but has charge of organizing and carrying out forest fire prevention and suppression activities.

The recommendations of this Budget highlighted a serious deficit in the funding of this Department's Boat Regulation Commission and marine patrol. Against projected requirements of \$840,000, I can only recommend an amount of \$400,000. This recommendation is necessary due to the requirement that these activities be supported by the

receipts received from motorboat and motorboat operator license fees. Equipment is deteriorating, patrolling activities must be reduced and service to the public will undoubtedly be less than it demands. Some means must be found to support these activities which contribute towards safety on the waterways of New Jersey.

An amount of \$837,000 is recommended for operation of the Division of Economic Development including \$500,000 for promotion expenses of the State and a small sum to enable the Division to assume its responsibility as the State's primary demographic agency.

PUBLIC UTILITIES

The \$1.5 million recommended as a direct appropriation to this Department will be financed through assessments on the utility companies which it regulates. Increases in this Budget will enable the Department to assign full-time qualified personnel to the lengthy hearings on rate increases requested by the major utility companies of the State.

Legislation enacted in 1969 assigned new responsibilities to this Department for the regulation of household moving companies. Initial experience in enforcing this new act indicates that annual costs of \$80,000 will be necessary.

Another major program of this Department consists of protecting the traveling public in places where local streets cross railroads. The elimination of such grade crossings not only protects persons using such streets but will enable faster movement of trains through adequately protected crossing areas. I am, therefore, recommending an appropriation of \$2 million from the State Transportation Fund for this purpose.

Public Broadcasting Authority

I am proposing the appropriation of \$2.8 million as evidence of my interest in New Jersey's entry into the field of television broadcasting. At present, equipment is being installed in the Authority's studios in Trenton and the latest predictions indicate that the first New Jersey television station will be operative this year.

As I stated at the dedication of the Authority's headquarters, I urge the business community and the industrial community to make financial contributions to assure the success of this venture. Television production is a costly process, but one that will provide much in the way of increased knowledge to the citizens of New Jersey.

DEFENSE

An appropriation of \$4.1 million is recommended for operating and capital expenses of this Department. This sum includes \$588,000 for the operation of the Division of Civil Defense which will enable them to continue their programs of training citizens in survival methods and disaster recovery operations. The Hammonton Training Center is one of the outstanding examples in the nation of such a disaster recovery school.

This Department continues to cooperate with the Division of State Police in the sharing of facilities. The most recent example is reflected by a recommendation in this Budget of \$343,000 as the State's share of a new hangar facility at Mercer Field in Trenton. This hangar will house aviation units of the National Guard as well as provide space for the storage and repair of the recently acquired State Police helicopters.

CIVIL SERVICE

The heart of sound State government is in the quality and performance of dedicated staff. For the Department of Civil Service, which is responsible for recruiting and retaining good people, this Budget recommends \$3.4 million, an increase of \$300,000 over the current year.

The recommendation includes \$77,293 for 17 new positions to handle rising volumes of examinations, classification studies, for system improvements in central office procedures, for speedier services to the 283 local jurisdictions now under civil service and for a modest expansion of State employee training. Additional increases totalling \$68,000 are for supplies and services relating to intensified recruiting and examination activity.

LABOR AND INDUSTRY

Manpower

Requests were received from the Department of Labor and Industry for 18 programs of manpower training and related services totalling \$6.2 million. There is needed a searching review and evaluation of the cost-effectiveness of these critical and costly programs, including some definition of the division of effort between the public and private sectors. I am recommending, therefore, funds in the amount of \$800,000 to continue the existing Work Incentive Training program at its present scale of 3,000 training opportunities through the next fiscal year. This sum will match about \$3.2 million in Federal funds.

The counterpart program of providing care for children of those being trained for job openings under this program is found in my recommendation for the Bureau of Children's Services and, for other aspects of concern, in the Departments of Education and Community Affairs.

A number of new training programs were requested by the Office of Manpower. Should any of them appear necessary and advisable, I shall direct the use of unexpended balances for their implementation.

Rehabilitation

Through the services provided by the Rehabilitation Commission and the Commisison for the Blind, it is anticipated that 8,800 sighted and 325 blind persons will be employed during fiscal year 1970-71. These services depend upon the Federal government for 80% support, so estimates are subject to change depending upon decisions made in Washington.

In keeping with the aim of the Federal government to emphasize the rehabilitation of welfare clients, the sums recommended for Services to Clients are earmarked for target groups. Rehabilitation dollars properly directed can return many more persons now on relief, parole, and in our institutions to a productive and normal life and with considerable savings to the State.

OTHER FUNCTIONS

As for the regulatory functions in the Department of Labor and Industry, as well as for all functions in the Department of State, the Department of Agriculture and the Department of Banking and Insurance, the total being recommended in this Budget is for \$16.4 million which represents a continuation level of support at about 3% over the current year and includes an allocation of \$150,000 to establish the Department of Banking.

THE GOVERNOR'S EMERGENCY FUND

My recommendations for next year include the usual sums for unforeseeable conditions of an emergency or necessity, compensation awards for State employees where departmental resources to pay for them may not be adequate and \$350,000 to meet the cost of any continued rise in the price of food, clothing and household supplies which we will need for those in our institutions for whom we have a maintenance responsibility.

I am also recommending a sum of \$100,000 to establish and operate the Washington office which I discussed earlier in my Message. In the meantime, and to the extent that the establishment of such an office can be implemented this year, I shall use the balances now available to me in this Fund to open such an office assuming that I can enlist competent, knowledgeable and aggressive personnel in the cause of getting for New Jersey its just share of Federal dollars. Such an office could well become part of the Division of Budget and Accounting where the determination of necessity and advisability of requests for appropriations are already mandated, so that the priority of use of Federal dollars can be appropriately determined, with my approval, to State and local agencies.

TREASURY

For this Department, which is responsible for the fiscal management of State government, this Budget recommends a total of \$25.1 million, or an increase of \$1.8 million over the current year.

About two-thirds of this increase, in the Division of Taxation, is for added staff, supplies and equipment for intensified revenue law enforcement efforts; and for the strengthened central management, legal and research services. Long-standing vacancies in a number of older bureaus have been culled out and re-allocated to the Sales Tax Bureau where, along with new positions, for a total of 100, we shall make a determined effort for sales tax collections. It is anticipated that this Division's bureaus will realize significant gains in efficiency and economy from their consolidation at the new Willow Street building.

Recommendations include \$120,551 for 15 new positions for improved administration of State purchasing and investment programs, \$70,000 for 12 added staff to strengthen State accounting and budgeting procedures, and \$50,000 for the continuing study of State employment conditions pursuant to Chapter 304, P. L. 1968.

Planning-Programming-Budgeting System

Over the past year, the Bureau of the Budget has taken the lead in the development of a Planning-Programming-Budgeting System adapted specifically to the needs of our State. Beginning on Page 207 an Exhibit displays the budget of the State Department of Health in a program format. This is presented primarily as an example of an output-oriented (or goal-oriented) program structure, showing the relationship of the Department's activities to its major programs, each of which is identified with specific Department goals. The table shows the dollars and the manpower required for each of the programs of the Department.

From the beginning of the PPBS development project, emphasis has been on substance rather than on outward appearances; efforts have been directed toward the development of an analytic approach to planning and the use of carefully developed and thoroughly evaluated plans in the formulation of budgets.

As the PPB System becomes operational on a State-wide basis, State aims will be more clearly defined and related to the specific goals of departmental programs, which can then

be measured in terms of their contribution toward attainment of the broad State goals.

Several new positions have been recommended in the budgets of those agencies which will be participating in the development project in fiscal year 1970-71. These new positions are critically necessary to the furtherance of the PPB development project and to the development of a truly analytic and evaluative approach to planning and budgeting for our State government.

EDUCATION

The greatest challenge of all is in the field of education. Unlawful strikes threaten the entire educational system of New Jersey and encourage our youth to further challenge authority and the laws of the State and Nation. Educated reasonable men and women refuse to utilize existing and lawful methods to adjust their differences.

Local leadership, while insisting on local control of education, expect unrealistically the State to solve problems whose genesis are essentially local in nature and then only after the problems have reached crisis proportions. Many local officials who should know the fiscal capability of the State under our present tax structure unrealistically insist on full State financing. Our colleges and universities, through their Boards of Governors and Trustees, insist on non-interference by the State in matters relating to curriculum selection and assignment of personnel, number of students and responsibilities of teachers but, at the same time, demand of the State the unrestricted assignment of taxpayers' funds. Buildings are authorized, new programs are initiated and priorities are established without consultation with the Governor or his fiscal agents, even though these State officials are charged with the obligation of spending the tax dollars of our citizens wisely and economically.

The result has been that, even though we are spending 43.9% of our entire Budget on education, nobody is satisfied, and nobody is happy. Local school districts are unhappy; teachers are unhappy; students are unhappy;

parents are unhappy; taxpayers are unhappy; mayors are unhappy and, very frankly, based upon my personal observations during the past 30 days, I am unhappy! Changes must take place in education at all levels in the State of New Jersey—and soon!

Let me today restate as forcefully and as urgently as I can that the teachers of this State, especially those on strike at this time, must understand that the faith, the confidence and the goodwill of the taxpayers are absolutely essential to the improvement of their economic conditions and that interference with the education of the very children they are by their profession dedicated to serve is, in fact, a disservice to all, especially themselves. Let the strikes cease immediately and the teachers, like all others, pursue change and proper remedies through law and lawful process! If the law and the process are inadequate or unjust, let there be change! This administration welcomes change. We support excellence in education which presumes excellence in the teachers. We pledge cooperation, but we insist on obedience to the law, whether it be the law of the teachers in the classroom or the law of the New Jersey Legislature.

Yet, in some respects, the teacher strikes have served to point out the need for immediate attention to the problems in all areas of education in New Jersey. In my first Special Message, to be delivered this very day, I suggest that a Tax Policy Committee investigate the areas of responsibility in this field by local and State governments, and that they recommend appropriate means for finances. I strongly recommend to you, the elected representatives of the people charged with the responsibilities of enacting the laws we must all obey, that you, through appropriate committees, do the same. Existing laws should be re-examined and change where indicated should be recommended. We cannot survive under these crises conditions. We must find the long-range answers and, while we must be resolute, we must be certain that we are right. Education on all levels deserves our immediate uninterrupted attention.

This Budget recommends an expenditure program of \$649.8 million for all educational purposes. Aid to local school districts represents the largest expenditure, a total of

\$319.4 million. Included in this amount is \$216.9 million in formula aid for local school districts. Funds recommended for education of the handicapped increase by more than 25% to \$29.1 million.

There is included an amount of \$2.6 million for adult education programs. These programs are geared to upgrading the quality of life and the employment opportunities of those that society has left behind because they are not able to read and write or because they lack a high school diploma.

For vocational education, I have recommended a State appropriation of \$4 million which will be matched by Federal and local sources.

For transportation of children to and from school the State's 75% share will increase by \$3.4 million in Fiscal 1971 to \$28.3 million.

State contributions to pensions and fringe benefits of teachers in local school districts and college faculties will increase by \$11.8 million, or 10%, to \$129.8 million.

School building aid debt service amounts to \$3.1 million. This appropriation finances the payment of principal and interest for school construction in districts which are unable to provide suitable school facilities. This is the result of legislation two years ago by which the State underwrites \$90 million of such construction.

The State aid needed to fund our share of the Federal School Lunch program will amount to \$3.4 million. This is the result of more schools enrolling in the program and a greater percentage of children within these schools participating.

HIGHER EDUCATION

The Higher Education Act of 1966 established the Department of Higher Education as a separate department of State government, with the mandate to advance long-range planning, establish general policy, coordinate the activities of the individual institutions, and maintain general financial over-

sight of the State system of higher education. Implicit in this mandate was a responsibility to provide higher education opportunities for the increasing numbers of New Jersey residents who seek admission to college and university programs.

The fiscal year 1971 budget includes a total of \$198.1 million for all purposes of higher education, an increase of \$43.6 million over the 1970 adjusted appropriation. This includes \$131.7 million for operation of Rutgers, the State University; the six State Colleges now in operation; the New Jersey College of Medicine and Dentistry; the Newark College of Engineering; and the State School of Conservation, and for development of our two new State colleges.

These institutions will provide higher education opportunities for a total of 51,550 full-time students and 98,840 part-time students, for a total of 150,390. In 1970 we provided for 45,870 full-time students and 95,980 part-time students, for a total of 141,850. Thus, we are expecting an increase of 5,680 full-time and 2,850 part-time students next year.

The increased enrollment will require an additional 390 teachers and 274 other employees for these institutions in fiscal year 1971.

The funds recommended for the State colleges will continue the transition of the six existing colleges to multi-purpose colleges with degree programs in an ever-widening range of academic disciplines. The two newly authorized State colleges will be preparing to accept their first students in September, 1971, with funds provided in 1971 for continued building of the basic administrative and academic staff.

"Open Door" Policy

Equally important are the funds provided for a variety of student financial assistance programs. In fiscal year 1970 we appropriated \$14.1 million for this purpose, with which direct financial assistance was provided to 23,453 students. For fiscal year 1971 I have recommended \$22.6 million for financial aid to take care of an estimated 27,200 students. Included in this total is \$9.8 million, which will aid approxi-

mately 7,100 educationally and financially disadvantaged students who will thus be enabled to attend college under the "Open Door" policy. This is 2,498 more such students than we are aiding in the current year.

In addition, at the end of fiscal year 1971 the State will have under guarantee a total of 156,699 student loans equaling \$161.6 million; this represents a net increase of 41,191 loans totalling \$45.8 million during the 1971 fiscal year.

The county colleges continue to comprise the most rapidly growing segment of our higher education system. I have included an appropriation of \$22.2 million for the State's share of the operating costs of our 14 county colleges, which will have a total enrollment of 35,237 full-time equated students in 1971. This compares with \$11 million and 26,122 full-time equated students in 1970. The apparent disparity between costs and numbers of students reflects the increasing costs of operation, because of which many more institutions qualify for the maximum \$600 per equated full-time student aid.

Higher Education Capital Construction

In addition to providing \$8 million for the redemption of bonds for higher education construction, I am recommending that an amount of \$4 million be provided to permit the State to begin renovations of the Martland Hospital in Newark to enable it to be used to supplement teaching hospital facilities to be provided at the New Jersey College of Medicine and Dentistry. This Budget also contains a small sum to permit the Department of Higher Education to perform advance planning on facilities that will be needed beyond those authorized from the 1968 Bond Issue. An amount of \$600,000 is recommended for roads and parking lots at the State colleges to facilitate the large number of commuter students enrolled.

Medical Education

Based on statutory commitments made in 1964 and 1967, the State of New Jersey has accepted the responsibility for the development and operation of the New Jersey College

of Medicine and Dentistry and the Rutgers Medical School as four-year medical schools "to provide an uninterrupted flow of trained personnel to assist in the staffing of the hospitals and public institutions and agencies of the State, and to prepare students for general practice in the professions of medicine and dentistry".

Recognizing the need for a unified policy and for coordination between the two medical schools, the Legislature in 1964 established a Council on Medical and Dental Education, and charged it "to recommend to the Governor and Legislature, at the earliest possible date and not later than January 1, 1970, a comprehensive program which would provide for the centralization of administration of the medical and dental facilities of the college (of medicine and dentistry) and the State University and the integration of such facilities, as separate operating entities, within a common administrative system".

Unhappily, the Council in its final report, dated December 31, 1969, failed to discharge that part of its responsibility. The State is thus faced with the prospect of developing and operating two medical schools over the immediate future without any clear policy for medical education.

The commitments made in 1964 and 1967 represent a total capital investment of \$216 million, based on the present plans of the two institutions. Of that sum, appropriations from the General State Fund have totaled \$25.8 million since fiscal year 1966. A total of \$23.3 million has been allocated from the 1964 and 1968 Bond Issues, and approximately \$35.5 million is definitely available from Federal grants. Available resources thus total \$84.6 million, leaving a balance of \$131.4 million not now available.

In this Budget I have recommended additional capital appropriations totaling \$6.4 million for continuing the development of the two institutions. However, this will leave a gap of \$125 million still needed to complete construction and development under the present plans.

Operating costs for both institutions have increased rapidly since Fiscal 1965. During fiscal year 1966, the first year of full operation of the New Jersey College of Medicine

and Dentistry under State auspices, the State cost for operation of that institution was \$1.1 million; in the same year the cost to the State for operation of the Rutgers' Medical School was \$600,000, a total of \$1.7 million for both. The corresponding costs for fiscal year 1969 were \$7.9 million and \$2 million, for a total of \$9.9 million. The combined total recommended for the operation of both institutions in Fiscal 1971 is \$13.4 million. We are thus faced with possible total operating costs for two four-year medical schools of about \$25 million per year by the mid-1970's under existing plans. Because of the virtual impossibility of providing funds in the amounts indicated above, over the next few years, this administration is being forced to search for alternatives to the current plans and to establish priorities for allocation of the financial resources seen to be available for medical education. With some assistance from a consulting firm, we have searched for alternatives and considered priorities which would best meet the goals set by the 1964 legislation which established the two institutions.

With this background, I made a personal visit to both schools. While I have not yet finalized my decision, I can say to you today that we must re-evaluate and establish priorities consistent with our fiscal responsibilities and the funds presently available for this purpose. The entire question of medical manpower requires, in my judgment, special attention, and I have concluded, therefore, to present to you at an early date a special message outlining my decision concerning both medical schools and my recommendations concerning the entire field of medical manpower.

COMMUNITY AFFAIRS

Much of New Jersey's concern for human values is reflected in the budget for the Department of Community Affairs—through which the State shares these concerns with county and municipal governments.

The total budget recommendation for this Department for fiscal year 1971 is \$29.2 million—\$3.3 million for direct operating costs, and \$25.9 million for State aid programs.

Of that total, the largest single amount is \$12 million for supplementary municipal aid. Second in amount and importance is \$7.2 million for housing and urban renewal programs, exclusive of the \$2.7 million recommended for assistance to local agencies in carrying out the Model Cities programs. Taken together, the \$9.9 million included for these two major purposes is expected to produce about \$25.5 million in Federal grants to local governments.

Of the \$7.2 million for housing and urban renewal programs, \$6.1 million is directed specifically toward the development of new housing units and upgrading the condition of existing housing units for low-income and middle-income residents of our State. The \$3.6 million included in that total for the Revolving Housing and Demonstration Grant Fund can generate as much as \$300 million in private mortgage funds within two years. Development of housing facilities is a long-term process, but the 1971 appropriation could produce as many as 15,000 new housing unit starts within two years.

At the same time, under the Cooperative Housing Inspection program, through the joint efforts of State and local governments we can begin to meet the statutory mandate for registration and periodic inspection of all multiple dwellings and hotels, wherever they may be located in New Jersey. I have recommended a total of \$1.8 million for this purpose.

When the Federal Office of Economic Opportunity program was initiated, New Jersey became the first State to qualify for the many types of Federal aid program funds authorized under this act. We have continued to assist local agencies and county and municipal governments with both technical assistance and State funds to supplement local funds for matching available Federal funds. Along with local funds, the \$3 million recommended for assistance to local agencies for community action, legal services, economic development, and government personnel training programs will attract at least \$26.1 million in Federal funds to New Jersey.

New Jersey is participating in a joint Federal-State-local government effort to break the "poverty cycle" through

the Work Incentive program. Funds for that effort are included in several agency budgets. In this Budget I have recommended \$1 million for aid to local agencies in establishing and operating day care centers which will provide day care facilities for a total of about 1,300 pre-school and school-age children, as part of the program to train and secure employment for welfare recipients. It is anticipated that \$2.4 million in Federal funds will be invested in about 20 centers in fiscal year 1971 along with the State and local funds.

The Neighborhood Education Center Act of 1968 (Chapter 182, P. L. 1968) authorized establishment and operation of eight such centers supported by State funds. It is expected that by July, 1970 five centers will be in operation with a capacity for 200 students, and I have recommended \$600,000 for their continued operation in fiscal year 1971.

Another \$1.6 million recommended for this Department will provide for direct advice and assistance programs to local and county governments, through the Office of Community Services, the Division of Local Finance, and the Division of State and Regional Planning.

The remaining \$1.1 million provides for general administration of the Department, supervision of the State aid programs cited above, and operation of the Division on Aging, the Division of Youth and the Women's Division.

EMPLOYEES SALARIES AND BENEFITS

In the Fall of 1968, the Legislature authorized the Budget Director to contract with a recognized management consulting firm, with the approval of the President of the Senate and the Speaker of the House, to prepare a thorough study of wages, salaries, benefits, work productivity and working conditions of State employees, comparing them with private employment. The study was intended to establish standards and guidelines to permit fair treatment of our employees and so that the State may gain and maintain a competitive position in recruiting and retention of its personnel.

I am informed that this study is rapidly coming to a close and that specific recommendations in all respects will be forthcoming shortly. While I shall accept the report as a guideline, I cannot, of course, commit myself to its full implementation until I have had the opportunity of making an in-depth study. I also have serious questions in my mind concerning the validity of automatic unearned across-the-board annual increments. Believing as I do that no group of employees in any field of endeavor perform exactly alike—some are average, some below average and some above average—rewards, I think, must go to those who earn them; and, therefore, although I have provided \$30 million in this Budget for salary adjustments or other benefits, it must not be interpreted as being a commitment across-the-board to all State employees. I can assure the State employees, however, that there will be careful analysis, compassionate considerations and just determinations. It is our desire to develop a happy family of State employees, and the money suggested in this Budget will hopefully be utilized in that direction.

THE JUDICIARY

I am proposing recommendations of \$8.3 million, an increase of \$300,000 for operations of The Judiciary, including funds for 26 new positions. I am hopeful that this sum will provide sufficient resources for the many activities of the court system in which litigation continues to climb. While civil litigation appears to be levelling off, there is a continued increase in juvenile cases and matters before the trial courts as well as the Appellate Division.

CONCLUSION

This, my first Budget Message, is by force of circumstances, dependent in a large measure on decisions made by the previous administration, its chief executive, and department and division heads, most of whom are not now associated with the new administration. Its presentation so soon after the inauguration, as required by law, prevented the in-depth study, appraisal and evaluation that this

administration would have preferred prior to its submission to the Legislature. Many reforms needed and contemplated are not reflected herein because time would not permit remedial action. Consolidation and elimination under active consideration could not be implemented in time. Special programs, innovative approaches and suggested solutions to old problems must perforce take the form of special messages to be presented to the Legislature in the months ahead. The priority responsibility of recommending and urging enactment of revenue producing legislation to balance this Budget was accomplished in less than thirty days from the date of inauguration, but left little time to other areas requiring study and action within the statutory period prescribed for the presentation of this Budget Message. The shortcomings of this Budget Message occasioned by the brevity of time presents, therefore, a unique opportunity for the Appropriations Committee to evaluate every recommendation. I urge this attention and pledge my full cooperation and that of the department heads of the new administration to the Appropriations Committee. Together, all of us can, and, I am sure, will mutually work for the best interests of our State and our fellow citizens.

Respectfully submitted,

WILLIAM T. CAHILL,
Governor of New Jersey.

Attest:

JEAN E. MULFORD,
Acting Secretary to the Governor.

Were taken up by special order, and read a second time.

Mr. Parker offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Senate Bill No. 774 be placed back on second reading for the purpose of amendment.

Senate Bill No. 774 was placed back on second reading for the purpose of amendment.

Mr. Parker offered the following Assembly amendments to Senate Bill No. 774:

Amend page 1, section 2, lines 1 through 20, delete section 2 in its entirety and insert in lieu thereof:

"2. The Legislature hereby finds: that the drastic decline in new housing starts, together with the existing large number of substandard dwellings, has produced a critical

shortage of adequate housing in this State adversely affecting the economy of this State and the well-being of its residents; that there exists a need for adequate, safe and sanitary housing for New Jersey's residents; that a large and significant number of New Jersey residents have and will be subject to hardship in finding adequate, safe and sanitary housing unless new facilities are constructed and existing housing, where appropriate, is rehabilitated; that unless the supply of housing and the ability of our residents to obtain mortgage financing is increased significantly and expeditiously, a large number of residents of this State will be compelled to live in unsanitary, overcrowded and unsafe conditions to the detriment of the health, welfare and well-being of these persons and of the whole community of which they are a part; that by increasing the housing supply of this State and the ability of our residents to obtain mortgage financing, the clearance, replanning, development and redevelopment of blighted areas will be aided, and the critical shortage of adequate housing will be ameliorated.

"It is hereby found that a major cause of this housing crisis is the lack of funds available to finance housing by the private mortgage lending institutions of the State; it is further found that this lack of funds has frustrated the sale and purchase of existing residences in the State.

"The Legislature has determined that to aid in remedying these conditions, to promote the expansion of the supply of funds available for residential mortgages and thereby help alleviate the shortage of adequate housing, a corporate agency of the State shall be created with power to raise funds from private investors in order to make those funds available for residential mortgage loans in this State. The Legislature has further determined that by utilizing such powers the agency created shall help develop the financial resources available to meet the housing needs of its residents. This purpose is best accomplished through a program whereby mortgage lending institutions make the needed residential mortgage loans through the use of proceeds of loans made available by the agency on terms designed to assure the expansion of available mortgage funds while protecting against the realization by these mortgage lending institutions of an excessive financial return or benefit.

“The Legislature further finds that the authority and powers conferred under this act and the expenditure of public moneys pursuant thereto constitutes a serving of a valid public purpose and the enactment of the provisions hereinafter set forth is in the public interest and is hereby so declared to be such as a matter of express legislative determination.”

Amend page 7, section 6, line 30, after the word “State” delete “;” and insert the words “and eliminate the existence of a large number of substandard dwellings;”

Mr. Parker moved the adoption of the Assembly amendments.

Which motion was adopted.

Senate Bill No. 774, entitled “An act to increase available funds for residential mortgage loans in the State; creating the New Jersey Mortgage Finance Agency and defining its powers and duties; authorizing loans by the agency to mortgage lenders to furnish funds for new residential mortgage loans; authorizing the issuance of bonds and notes of the agency and providing the terms of security thereof; and making an appropriation therefor,”

Amend page 2, section 1, line 48, begin a new subparagraph with "(iii)".

Amend page 3, section 1, after line 88, insert 3 new sections as follows:

"2. P. L. 1945, c. 162, s. 9 (C. 54:10A-9) is amended to read as follows:

9. Any taxpayer which holds capital stock of a subsidiary during all or part of any year may, for the purposes of the tax imposed by this act, deduct from its net worth, *the following amount:*

(a) *in the case of a subsidiary which is taxable under this act, such proportion of the average value of such holdings, less net liabilities (if any) to [a] such subsidiary, as corresponds to 50% of the ratio of the subsidiary's taxable net worth, for the same year under this act, to its entire net worth; [provided, however, that if the subsidiary is] or*

(b) *in the case of a subsidiary subject to a franchise tax measured by gross receipts under any other law of this State, such [deductible] proportion of the average value of such holdings [shall correspond], less net liabilities (if any) to such subsidiary, as corresponds to 50% of the ratio of the subsidiary's business within the State to its business everywhere during its next preceding taxable year under such law; or*

(c) *in the case of a subsidiary which is a bank as defined in section 54:9-1 of the Revised Statutes, 50% of the difference between the average value of such holdings for the same year and net liabilities (if any) to such subsidiary; or*

(d) *in the case of a subsidiary which is a financial business as defined in section 2 of chapter 174 of the laws of 1946 (C. 54:10B-2(b)), such proportion of the average*

value of such holdings, less net liabilities (if any) to such subsidiary, as corresponds to 50% of the subsidiary's allocation fraction for the same year determined under section 8 of chapter 174 of the laws of 1946 (C. 54:10B-8); or

(e) in the case of a subsidiary which is a stock, mutual or assessment insurance company organized or existing under the laws of this State or under the laws of another State or foreign country, such proportion of the average value of such holdings, less net liabilities (if any) to such subsidiary, as corresponds to 50% of the ratio which the amount of taxable premiums, as defined in sections 4 and 5 of chapter 132 of the laws of 1945 and section 1 of chapter 186 of the laws of 1950 (C. 54:18A-4, 54:18A-5, and 54:18A-5.1), collected by the subsidiary in the same year, bears to the total amount of all premiums collected by the subsidiary in the same year which would be taxable premiums if all such premiums were on account of business in this State; or

(f) in the case of a subsidiary which is a railroad as defined in section 2 of chapter 291 of the laws of 1941 (C. 54:29A-2), such proportion of the average value of such holdings, less net liabilities (if any) to such subsidiary, as corresponds to 50% of the ratio which the number of miles of all track over which the subsidiary operates in this State in the same year bears to the total number of miles of all track over which the subsidiary operates everywhere in the same year.

For the purpose of this section a subsidiary shall be deemed to be any corporation in which a taxpayer is the owner of at least 80% of the total combined voting power of all classes of stock entitled to vote and of at least 80% of each class, if any, of nonvoting stock.

3. The provisions of this amendatory act shall be applicable to taxpayers whose accounting periods end after June 30, 1970.

4. Where the privilege period covered by a report includes any period prior to January 1, 1970, then (1) tentative taxes on taxable net income shall be separately computed by applying both the rate for the period before January 1, 1970 and the rate for the period on and after such date to the taxable income for the entire privilege period; and (2) the tax for such privilege period shall be

the sum of that proportion of each tentative tax which the number of months in each period bears to the total number of months in the entire privilege period. For the purposes of this computation, more than $\frac{1}{2}$ the number of days in a calendar month shall be deemed to be a full month."

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 14, 1970.

ASSEMBLY BILL No. 720

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 720, for reconsideration.

Assembly Bill No. 720 would implement the recommendations of the Commission on State Administrative and Professional Compensation in respect to the salaries of the Judiciary and certain other administrative and professional positions in the Judicial Branch. Funds more than sufficient to cover the cost of the salary increases provided for in Assembly Bill No. 720, both to the State and to the counties, will be available from increased court fees provided for by Assembly Bill No. 983 which has passed both Houses of the Legislature and which I intend to approve upon final approval of Assembly Bill No. 720. In order to apply the increased revenue to be derived from court fees pursuant to Assembly Bill No. 983 to the purposes of Assembly Bill No. 720, a technical amendment is necessary to include in Assembly Bill No. 720 a specific appropriation of funds.

I am also taking the opportunity in this message to correct a technical defect in Assembly Bill No. 720 resulting from the fact that the bill purports to supplement another act when such is not the case.

1076 MINUTES OF THE GENERAL ASSEMBLY

Accordingly, I herewith return Assembly Bill No. 720 without my approval and respectfully recommend the following changes:

1. Page 2, Section 5, Line 1: Omit "the" insert "this"; omit "to which this act is a supplement".

An Assembly Resolution commending the Middletown Youth Athletic Association for its sponsorship of the 1970 Southern New Jersey State Babe Ruth Baseball Tournament and for its extensive baseball program for the benefit of youth.

WHEREAS, The 1970 Southern New Jersey State Babe Ruth Baseball Tournament will be held in Middletown Township, from July 23 through August 1, under the sponsorship of the Middletown Youth Athletic Association; and,

WHEREAS, The Middletown Youth Athletic Association is responsible not only for the highly successful operation of the Babe Ruth League—a program for boys from 13 through 18—in its area, but also for the largest single youth baseball program in the State, encompassing youth from 8 through 18 years of age and having more than 2,000 participants; and,

WHEREAS, Operated through the devoted efforts of volunteers, and supported by the contributions of public-spirited citizens, the Middletown Youth Athletic Association has performed invaluable public service, without dependence upon governmental aid or funds, in providing a comprehensive program of wholesome and beneficial youth activity; and,

WHEREAS, The forthcoming Babe Ruth tournament under the sponsorship of this outstanding organization is an appropriate occasion for recognition of the many, varied and valuable services to youth which have been contributed over the years by the Middletown Youth Athletic Association; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That this House hereby congratulates and commends the Middletown Youth Athletic Association upon its sponsor-

ship of the forthcoming Southern New Jersey State Babe Ruth Baseball Tournament, and pays tribute to the devoted and valuable service of the said Association in providing a comprehensive program of wholesome and beneficial activity for large numbers of young people in its area; and,

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and a duly authenticated copy, signed by the Speaker and attested by the Clerk, be transmitted to Mr. Phil De Marco, President of the Middletown Youth Athletic Association.

An Assembly Resolution commending the prompt, vigorous and intrepid action of State Police Trooper James L. Drake in aiding the victim of an assault and arresting the assailant in an incident in the City of Trenton on May 7, 1970.

WHEREAS, On May 7, 1970, while the Legislature was engaged in a session extending into the evening hours, Trooper James L. Drake of the New Jersey State Police, assigned to the State Governmental Security Bureau at the State House, was detailed to escort Assemblymen Gavan and Higgins to religious services in the City of Trenton; and,

WHEREAS, While returning with the Assemblymen to the State House, Trooper Drake observed an injured man on South Clinton Avenue, and, upon prompt investigation, learned that the man was the victim of an assault and that his assailant, having left to re-arm himself with a more deadly weapon, was expected to return momentarily and perhaps conclude the assault with a homicide; and,

WHEREAS, Trooper Drake thereupon sought and located the suspected assailant, armed with a large knife and in such proximity to four other men that it was not immediately apparent whether the other men might be his accomplices or reinforcements; and,

WHEREAS, Without hesitation Trooper Drake approached the group, secured the person of the suspected assailant and placed him under arrest, and made expeditious arrangements for the victim to receive medical care and for the haling of the suspect before the judge of the local municipal court; and,

WHEREAS, The suspect arrested by Trooper Drake subsequently pleaded guilty to charges of assault and battery and of carrying a weapon with intent to assault, and has been sentenced to six months in the Mercer County Workhouse; and,

WHEREAS, The swift, brave and highly effective action taken by Trooper Drake in this emergency reflects the high-

est credit not only upon him but also upon the training and standards of the State Police; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That this House does hereby commend the prompt, vigorous and intrepid action of Trooper James L. Drake in succoring the victim of an assault and shielding him from further harm, and in proceeding expeditiously and despite his own personal danger to secure the arrest of the suspected assailant, which quick and courageous action no doubt contributed greatly to the successful prosecution and prompt punishment of the offender; and,

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly, and that duly authenticated copies, signed by the Speaker and attested by the Clerk, be transmitted to Trooper Drake, to Sergeant J. Majarwitz, Supervisor of the State Police detail at the State House, to Colonel David B. Kelly, Superintendent of New Jersey State Police, to the Honorable George F. Kugler, Jr., Attorney General of the State of New Jersey, and to His Excellency, William T. Cahill, Governor of the State of New Jersey.

WHEREAS, Dr. Harold F. Hoffman, has served the Township of Livingston in Essex County, N. J. as its Superintendent of Schools with dedication since July 1, 1955; and

WHEREAS, In this period of unprecedented expansion and time of public concern he has worked untiringly to make the school system he administered one of the most attuned, vigorous, forward-looking and respected in the State of New Jersey; and

WHEREAS, Dr. Hoffman has fulfilled all the obligations of his office with the highest distinction, with dedication, and imaginative leadership; and

WHEREAS, The spirit and philosophy of Dr. Hoffman's fruitful administration, with its countless responsibilities and accomplishments, emphasizing the education of the individual student in fields removed from the mere learning processes—emphasizing the development of good citizenship, moral responsibilities and social awareness—will be felt and remembered with deep gratitude by the citizenry of Livingston; and

WHEREAS, On July 31, 1970, Dr. Hoffman is retiring as the Township of Livingston's Superintendent of Schools and concluding a career as educator that spans 42 years; now, therefore

Be It Resolved, That the members of the General Assembly, as a whole, wish to convey in a humble but significant way suitable recognition for Dr. Hoffman's work; and

Be It Further Resolved, That the members of the General Assembly express its high esteem for Dr. Harold F. Hoffman for his many achievements, his deep concern for the young men and women placed in his charge and his foresighted insistence on providing them with a wide variety of tools from the arsenal of education that would make them better equipped to take a responsible role in their community, state and nation as they face the complexities and uncertainties of modern life; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker of the General Assembly and attested to by the Clerk of the General Assembly be forwarded to Dr. Harold F. Hoffman.

Messrs. Dugan, LeFante, Friedland, Suminski, Conwell, Esposito, Healey and Jackman offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this earth Surrogate Joseph H. Kenny, of Jersey City N. J. on June 3, 1970; and

WHEREAS, Mr. Kenny was a graduate of St. Michael's Grammar School, Dickinson High School and the New Jersey Law School, now Rutgers University. He was admitted to the bar in 1934 and immediately participated in 2nd Ward politics; and

WHEREAS, Mr. Kenny was appointed a freeholder in 1948 and elected in the fall for a three-year term. At the end of this three year term he was appointed first assistant county counsel and in 1965 was nominated and elected to a four year term as county surrogate. Mr. Kenny won the nomination in the primary on June 2, 1970; now, therefore

Be It Resolved, By the General Assembly of the State of New Jersey that its profound regret is expressed upon the passing of Joseph Kenny and its sympathies and condolences are extended to his family; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker of the General Assembly and attested to by the Clerk of the General Assembly be forwarded to his brother, John A. Kenny and his sister, Gertrude M. Kenny.

Messrs. Schluter and Weidel offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God to take from our midst a most distinguished and able citizen—Hyman S. Kline—Trenton realtor, civic leader, and humanitarian; and

WHEREAS, Mr. Kline for more than 50 years served many organizations and worthy causes in the Mercer County area; and

WHEREAS, Mr. Kline's volunteer activities with the Boy Scouts of America earned him the highest honor given by the national Boy Scout organization as well as personal recognition from the Vatican; and

WHEREAS, Mr. Kline was a living example of the American Dream: an immigrant from Lithuania at age 7, he organized his own realty company, which grew from a small firm to one of the largest on the East Coast, doing work in 42 cities in the United States and Canada and developing over 50 communities in the Middle Atlantic States; now therefore be it

Resolved, That the New Jersey General Assembly join in mourning the death of Hyman S. Kline and express its profound condolences and sympathy to his family; and be it further

Resolved, That a copy of this resolution be spread upon the minutes of the General Assembly and a duly authenticated copy—signed by the Speaker of the General Assembly and attested to by the Clerk of the General Assembly—be transmitted to Mr. Kline's widow, Hilda, and members of his family.

WHEREAS, The World's Championship of Babe Ruth League baseball for 1970 was won by the team from Ewing Township, with its final tournament victory on August 29, 1970, in Brawley, California; and

WHEREAS, The people of this State, and particularly those of Ewing Township and Mercer County, take great pride and satisfaction in this triumph gained against the most qualified nationwide competition—a triumph rendered more signal in that, as a result of an early tournament loss, the Ewing Township team won the final five tournament games under the pressure of elimination by a single loss; and

WHEREAS, Under the devoted and competent direction of manager, Joe Sgro and coaches, Reg Bentivogli, Carl Grey and Bob Dorio, and with the material and moral support of Ewing Township Babe Ruth League officials and the parents and other persons involved, and with the significant assistance of other area Babe Ruth League teams against whose

worthy opposition the Ewing team's competitive skills and spirit were developed to championship quality, the Ewing team has brought a considerable honor to its State and community; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That this House hereby congratulates and commends the Ewing Township Babe Ruth League baseball team upon its World's Championship victory, and extends recognition to the coaches, officials, parents and other persons to whose support, efforts, contributions and sacrifices the ability of the Ewing team to participate, compete and succeed in this endeavor was in no small measure due;

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a duly authenticated copy, signed by the Speaker and attested by the Clerk, be transmitted to Charles Sista, President of the Ewing Township Babe Ruth League, the coaches and all the members of the Ewing Township Babe Ruth Championship Team.

ASSEMBLY BILL No. 78

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 78, with my objections, for reconsideration.

This bill would permit licensed retail dealers in firearms and their registered employees to carry weapons without permit during the course of their normal business while traveling to and from their place of business and other places for the purpose of actual sale, demonstration, exhibition, or delivery, in connection with a sale, provided any such weapon is unloaded and wrapped in a case, box, or other container.

The basic concept of this legislation is sound, since retail dealers of firearms must be licensed and meet the requirement of standards and qualifications prescribed by the Superintendent of State Police pursuant to Section 2A:151-24 of the New Jersey Statutes. Further, no such license shall be granted to a person who does not qualify for a permit to purchase firearms under Section 2A:151-33. With these safeguards, there exists no need to require such licensed dealers to further obtain permits to carry firearms in those situations set forth in the bill.

The bill as drafted, however, could be construed as permitting the sale of firearms outside of the registered place of business, contrary to Section 2A:151-24 (a) of the New Jersey Statutes. Accordingly, I herewith return Assembly

1216 MINUTES OF THE GENERAL ASSEMBLY

Bill No. 78 for reconsideration and with the recommendation that it be amended as follows:

ASSEMBLY BILL No. 105

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 105, with my recommendations for reconsideration.

Assembly Bill No. 105 provides that the parents or guardian of any infant who shall injure any property of a rail road, street railway, traction railway or autobus public utility shall be liable for damages in the amount of the injury to a limit of \$1,000.00, to be collected by the public utility in any court of competent jurisdiction, together with costs of suit. The sponsor of this bill has indicated that its purpose is to combat the serious problem of vandalism which besets the various public transportation utilities.

I agree with the intention of the sponsor, however, I feel the bill goes too far in certain respects. As drafted, it would subject parents or guardians to liability for any damage to those public utilities caused by an infant, whether intentionally or unintentionally. I would limit liability to damage caused intentionally.

Further, the liability would attach even though the infant were no longer under the custody or control of the parents

or guardian. I would exclude those situations where there was no custody or control. Since this bill provides for vicarious liability without fault, I would place the responsibility therefor on parents who may be more to blame for a child's conduct than guardians. While parental indifference and failure to supervise the activities of children is one of the major causes of juvenile delinquency and resultant vandalism, I do not feel that it is fair to place the same responsibility upon guardians who can only attempt to take the place of natural parents.

Accordingly, I herewith return Assembly Bill No. 105 for reconsideration and recommend that it be amended as follows:

On Page 1 section 1, line 1: After “parents” delete “or guardian”.

On Page 1, section 1, line 1: After “shall” insert “maliciously or willfully”.

On Page 1, section 1, after line 5: Insert the following new section:

“2. This act shall not apply to parents whose parental custody and control of such infant has been removed by court order, decree, judgment, military service, or marriage of such infant.”

On Page 1, section 2, line 1: Delete “2.” and insert “3.”

Respectfully,

/s/ WILLIAM T. CAHILL,

Governor.

ASSEMBLY BILL No. 284 2nd OCR

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 284, with my objections, for reconsideration.

This bill would supplement Title 23 of the Revised Statutes and provide for the licensing of private ponds that are stocked and maintained at the expense of the operator and are not runways for fish. The bill also would provide that persons angling in said private ponds would not be required to have a fishing license.

I am generally in favor of the purpose of the bill, however, the language should be corrected to carry out what I am sure is the true intent. The penalty provisions of this bill are limited to "any licensee", whereas the failure to obtain a license, to observe tagging requirements, and to comply in other respects with the provisions of the bill would also appear to be violations. In addition, the maximum violation is barely above the prescribed license fee, and this would tend to hinder voluntary compliance. A private pond operator might be tempted to delay compliance until after the first violation since the cost of the first violation would in all probability be less than the cost of the license. A more adequate discretionary penalty would appear appropriate.

I return the bill with the recommendation that the language be corrected as follows:

1. Page 3, Section 10: Delete the word "licensee" in line 1 and insert the word "person" in lieu thereof.
2. Page 3, Section 10: Delete "\$200" in line 3 and insert "\$1,000."

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
September 17, 1970. }

ASSEMBLY BILL No. 727 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 727, with my recommendations for reconsideration.

Assembly Bill No. 727 (OCR) would provide that a sheriff's officer who has served for three or more years under a temporary appointment prior to March 9, 1970, may be admitted to a civil service examination for permanent appointment to the position of sheriff's officer regardless of the fact that his age exceeds the maximum fixed by the Civil Service Commission for candidates for such position. I am advised by the sponsor that this bill was intended to make permanent the appointment of these officers some of whom have served under temporary appointment for periods of ten and twenty years. The bill, as drafted, fails to achieve its intended purpose. It would merely permit these officers to take the appropriate civil service examination. It does not provide for a permanent appointment upon passage of the examination.

I agree that these sheriff's officers who have performed capably over a three-year period and who have gained valuable experience over that time should be given added consideration. This is especially true in light of the difficulty experienced throughout the State in attracting and retaining law enforcement personnel. As a prerequisite to making such temporary appointments permanent, however, I would require that these appointees pass an appropriate examination to be conducted by the Civil Service Department. Further, since the Revised Civil Service Rules define "temporary appointment" in the case of local service (other than State) to be for a period of not more than four months, I recommend that the appointments in question be identified as "temporary or provisional appointments". Provisional is defined to mean appointments to a permanent position pending the regular appointment of an eligible from a special reemployment, regular reemployment or employ-

ment list. This will avoid any possible misinterpretation of the use of the term "temporary". I would also designate the Civil Service "Department", rather than the "Commission" to conduct the examination.

Accordingly, I am returning Assembly Bill No. 727 (OCR) for reconsideration with the recommendation that it be amended as follows:

1. *Page 1, Section 1, Line 2:* After "temporary" insert "or provisional".

2. *Page 1, Section 1, Line 5:* After "Service" delete "Commission"; insert "Department".

3. *Page 1, Section 1, Line 6:* Insert a new section 2 as follows:

"2. Upon passing said examination, which shall be conducted by the Civil Service Department within thirty days of the effective date of this act, such sheriff's officers so employed on a temporary or provisional basis for three or more years prior to March 9, 1970, shall be placed in the classified service of the Civil Service, with permanent status effective as of March 10, 1970."

4. *Page 1, Section 2, Line 1:* Delete "2." and insert "3."

Respectfully,

[SEAL]
Attest:

/s/ WILLIAM T. CAHILL,
Governor.

/s/ JEAN S. MULFORD,
Secretary to the Governor.

Mr. Parker moved that the message be spread in full upon the minutes.

Which motion was adopted.

Was taken up by special order, and read a second time.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
October 8, 1970.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 439, with my objections, for reconsideration.

Assembly Bill No. 439 would provide for the funding of the county offices on aging by the State in an amount equal

to one-half of the annual expenses of each office or \$20,000.00, whichever is less. The county offices on aging provide centers for dispensation of advice and assistance to the agent concerning housing, health, nutrition and other personal needs. The offices were initially funded for a three-year cycle under Title III of the federal Older American Act. As that funding expires I believe that it is incumbent upon us at the State level to encourage the continuity of this critically important service by financially aiding in its maintenance at a level commensurate with county interests.

Unfortunately, Assembly Bill No. 439 passed the Legislature on June 22, just eight days before July 1, set forth in the bill as the date on or before which the State Treasurer must make payments upon certificate of the Commissioner of the Department of Community Affairs and warrant of the Director of the Division of Budget and Accounting. In order to allow for the proper implementation of this law and to permit counties to anticipate the receipt of these funds in their 1971 budgets, I am suggesting certain changes which I believe will provide the necessary clarification.

Accordingly, I herewith return Assembly Bill No. 439 for reconsideration and recommend that it be amended as follows:

Page 3, Section 6, Line 10: Delete "July 1" and insert "December 31".

Page 3, Section 6, Line 10: After the word "of" and before the word "calendar" delete the word "the" and insert "each".

Page 3, Section 6, Line 11: After the word "year" delete "for which State aid hereunder is appropriated" and insert ". This payment shall constitute reimbursement to the county for the State aid portion of the annual expense of each county office on aging during the year in which the payment is made.".

Page 3, Section 8, Line 1: Delete "immediately" and insert "January 1, 1971".

Respectfully,

/s/ WILLIAM T. CAHILL,
Governor.

Attest:

/s/ JEAN E. MULFORD,
Secretary to the Governor.

Mr. Parker moved that the message be spread in full upon the Minutes.

Which motion was adopted.

Mr. Haelig offered the following resolution, which was read by the Clerk and adopted:

Resolved, That Assembly Bill No. 439 be given first reading for the purpose of re-enactment in accordance with the Governor's recommendations.

WHEREAS, Mr. Smith was active in the public affairs of his home town and county, having held the office of Mayor from 1959 to 1963; he was a member of the South Jersey Port Commission and a member of the South Jersey Public Relations Commission; and

WHEREAS, Mr. Smith was active in fraternal circles, professional organizations and civic societies; being a member of F. & A. M., No. 171, Ocean City; Crescent Shrine, Wildwood, N. J.; Lodge No. 1896, B. P. O. Elks; Kiwanis Club of Ocean City; now, therefore

Be It Resolved, That the members of the General Assembly of the State of New Jersey express their profound regret at the passing of their former colleague, Nathaniel C. Smith, and extend their deep sympathy to his widow, Mae Hoffer Smith and to his two daughters, Suzanne M., of Morristown, and Mrs. Donald Mercier, of Greensboro, North Carolina; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk of the General Assembly of the State of New Jersey, be forwarded to Mrs. Mae Hoffer Smith, his widow.

Mr. Kravarik offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Michael Scott, a Boy Scout of Madison Park, risked his life in an act of valor and sustained injuries when he courageously rescued and saved the life of a 10-year-old boy who had fallen off a 70-foot dam into eight feet of water; and

WHEREAS, Michael Scott has been treated in a hospital for his injuries several times since, and as a result of said

injuries he cannot participate in the sports he used to be active in; and

WHEREAS, He was awarded the National Boy Scout Council's Life Saving Award by the National Council of Boy Scouts; now, therefore

Be It Resolved by the General Assembly of the State of New Jersey:

That this House hereby extend its commendation to Michael Scott for his act of bravery and its congratulations for his Boy Scout Award he so deserves; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a duly authenticated copy, signed by the Speaker and attested by the Clerk be transmitted to Michael Scott and to Boy Scout Troop No. 61.

Mr. Goldfarb offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, On December 7, 1941, this nation was abruptly plunged into a world war by a sudden attack which it had

inadequately foreseen and for which it was insufficiently prepared; and,

WHEREAS, The swift and devastating attack made upon our forces at Pearl Harbor on that date took the lives of many brave Americans, caused crippling damage to our fleet and aerial forces, and gravely compromised our defensive position in the Pacific; and,

WHEREAS, Through the patriotic endeavor and united effort of our people, and the bravery of our military and naval forces, the United States recovered from this initial blow, rallied, drove back the advancing enemy, and, together with our Allies, brought the war to a victorious conclusion in both the European and Pacific theatres within four year after the attack on Pearl Harbor; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That, upon this anniversary of the attack on Pearl Harbor, this House hereby calls to memory the tragic fate of the many brave men whose lives were sacrificed on that occasion; and likewise calls to memory the vast and vigorous effort by which the courage and patriotism of a united people surmounted that initial blow; and further prays that the example of what great accomplishments may come from national unity of purpose in the face of adverse conditions may not be lost upon this and succeeding generations.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
December 7, 1970. }

ASSEMBLY BILL No. 1202 (Official Copy Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 1202 (Official Copy Reprint), with my objections, for reconsideration.

This bill would extend the provisions of the "Local Emergency Aid Act of 1969" (P. L. 1969, c. 94) until January 1, 1975.

I am aware that within the past years several New Jersey municipalities have incurred unusual expenses in connection with civil disturbances. However, the monies appropriated pursuant to this act are limited; therefore, extended commitment of these funds should be made.

I return the bill with the recommendation that the following change be made:

Page 1, Section 1, Line 5: Delete "1975" and insert "1971".

Respectfully,

/s/ WILLIAM T. CAHILL,

Governor.

Attest:

/s/ JEAN E. MULFORD,

Acting Secretary to the Governor.

Mr. Parker moved that the message be spread in full upon the Minutes.

Which motion was adopted.

ASSEMBLY BILL No. 525

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 525, with my objections, for reconsideration.

This bill provides that any person who engages in the practice of medicine or surgery in this State without first having obtained a license therefor shall be guilty of a misdemeanor. It further provides that anyone who engages in the practice of medicine or surgery in this State contrary to the provisions of this article (Title 45, Article I, Practice of Medicine and Surgery in General) shall be guilty of a misdemeanor. While I agree with the penalty provisions for the practice of medicine or surgery without a license, the provision pertaining to violation of the cited article is much too broad. That article contains many provisions, among which are the following: doctors who fail to display their name properly, doctors who advertise fraudulently, those who are adjudged insane, and also those who are found to be habitual users of intoxicants.

It is not appropriate to apply the same penalty provision to these other situations which I have indicated. Sections R. S. 45:9-16 and R. S. 45:9-22 provide for the suspension and revocation of licenses and the assessment of penalties for violation of provision of the article. It is my feeling these sections are adequate.

The sponsor of the bill has indicated that his prime concern is to provide that those who engage in the practice of medicine or surgery in the State without first having obtained a license therefor shall be guilty of a misdemeanor. I concur that the bill should be limited to this particular situation.

For these reasons, I herewith return Assembly Bill No. 525 for reconsideration and recommend that it be amended as follows:

Page 1, Section 1, Lines 4-5: After "article" delete "or contrary to any of the provisions of this article".

Respectfully,

Which motion was adopted.

The following communication was sent to the desk and read by the Clerk:

STATE OF NEW JERSEY
DEPARTMENT OF LABOR AND INDUSTRY
CHARLES SERRAINO, *Commissioner*
LABOR AND INDUSTRY BUILDING
TRENTON, NEW JERSEY 08625

December 8, 1970.

Honorable William K. Dickey
Speaker of the Assembly
State House
Trenton, New Jersey

DEAR MR. SPEAKER:

It is with a great deal of regret that I send you my resignation from Assembly District 9B of Union County, effective December 1, 1970, when I began my official duties as Assistant Commissioner for Labor Standards in the New Jersey Department of Labor and Industry under Commissioner Charles Serraino. I have enjoyed a most pleasant and interesting association with you and my distinguished colleagues in the Assembly. I hope that the friendships I have formed during the three years I have spent with the legislative branch will continue now that I have entered another phase of State government.

If there is anything I can do to show how much I have appreciated our relationship, please don't hesitate to ask me.

Sincerely,

HERBERT J. HEILMANN,
Assistant Commissioner,

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT	
December 14, 1970	

ASSEMBLY BILL No. 832 (OCR)

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 832 (OCR), with my objections, for reconsideration.

This bill would permit constables of the county district court in second class counties having a population between 375,000 and 400,000 to be appointed permanently to the classified service as sergeants-at-arms without examination.

A recent change in the Rules Governing the Courts of the State of New Jersey regarding service of process has resulted in a threatened loss of employment to many constables who have dutifully served in county district courts, some for many years. I am sure that the revisers of the Rules of Court did not intend that these men, who have through service gained the expertise that only experience can give, should summarily be prohibited from performing their previous duties. I agree with the proposal that since sergeants-at-arms are now required to perform a substantial portion of the duties previously handled by constables, those constables who are presently employed in that capacity should be, at the discretion of the judge or presiding judge of the county district court, eligible for appointment

to the classified service as sergeants-at-arms without examination.

I do, however, feel that since this bill is permissive in nature, its effect should be statewide rather than restricted to second class counties with a specified population. It would also be contrary to the principles of civil service law to allow to be appointed as sergeants-at-arms without examination constables who might not have the experience of those men presently serving.

Therefore, I return the bill with the recommendation that the language be corrected as follows:

Page 1, lines 7-11, after "prescribe," delete in its entirety and insert in lieu thereof, "except that constables of the county district court who were employed in that capacity prior to January 1, 1971 shall, upon passage of this act, be eligible for permanent appointment to the classified service as sergeants-at-arms without examination."

Page 2, section 2, line 1, delete "January 1, 1970" and insert "immediately."

Respectfully,

/S/ WILLIAM T. CAHILL

Attest:

Governor.

/S/ JEAN E. MULFORD,

Secretary of the Governor.
